Sub-Fund "ALINEA GLOBAL"

Sub-Fund "INTERNATIONAL DIVERSIFIED PORTFOLIO"

Sub-Fund "LA PLETA"

Sub-Fund "MIXED ALLOCATION"

INTRODUCTION

HALLEY SICAV (the “Fund”) is a Luxembourg open-ended investment company established as a *société d’investissement à capital variable* (investment company with variable capital) formed as a *société anonyme* (public limited company) in accordance with the Luxembourg law of 17 December 2010 concerning undertakings for collective investment as may be amended from time to time (the “Law of 2010”).

The Fund is subject, in particular, to the provisions of Part I of the Law of 2010 which relate specifically to undertakings for collective investment in transferable securities as defined by the European Directive of 13 July 2009 (2009/65/EC) as may be amended from time to time (the “UCITS Directive”).

The Fund is registered on the official list of undertakings for collective investment pursuant to the Law of 2010. However, such registration shall not, under any circumstances, be described in any way whatsoever as a positive assessment made by the Luxembourg supervisory authority, the *Commission de Surveillance du Secteur Financier* (the “CSSF”), of the quality of the shares offered for sale by the Fund (the “Shares”).

The Fund is offering Shares of one or several separate sub-funds (individually a “Sub-Fund”, collectively the “Sub-Funds”) on the basis of the information contained in this prospectus (the “Prospectus”) and in the documents referred to herein. No person is authorised to give any information nor to make any representations concerning the Fund other than as contained in the Prospectus and in the documents referred to herein, and any purchase made by any person on the basis of statements or representations not contained in or inconsistent with the information and representations contained in the Prospectus shall be solely at the risk of the purchaser. Neither the delivery of the Prospectus nor the offer, sale or issue of Shares shall under any circumstances constitute a representation that the information given in the Prospectus is correct as at any time subsequent to the date hereof. An Addendum or updated Prospectus shall be provided, if necessary, to reflect material changes to the information contained herein.

The distribution of the Prospectus is not authorised unless it is accompanied by the most recent annual and semi-annual reports of the Fund, if any. Such report or reports are deemed to be an integral part of the Prospectus.

The Shares to be issued hereunder may be of several different classes or categories which relate to several separate Sub-Funds. For each Sub-Fund, the board of directors of the Fund (the “Board of Directors”) may decide at any time to issue different classes of Shares (individually a “Class”, collectively the “Classes”) or categories of Shares (individually a “Category”, collectively the “Categories”) whose assets will be invested jointly according to the Sub-Fund’s specific investment policy, but with specific features applicable to each Class or Category. Shares of the different Sub-Funds may be issued, redeemed and converted at prices computed on the basis of the net asset value per Share (the “Net Asset Value” or “NAV”) of the relevant Class, Category or Sub-Fund, as defined in the Articles of Incorporation of the Fund (the “Articles”).

In accordance with the Articles, the Board of Directors may issue Shares in each Sub-Fund. A separate portfolio of assets is maintained for each Sub-Fund and is invested in accordance with the investment objective applicable to the relevant Sub-Fund. As a result, the Fund is an “umbrella fund” enabling investors to choose between one or more investment objectives by investing in one or more Sub-Funds. Investors may choose which Sub-Fund best suits their specific risk and return expectations as well as their diversification needs.

The Fund currently offers four Sub-Funds:

- ALINEA GLOBAL
- INTERNATIONAL DIVERSIFIED PORTFOLIO
- LA PLETA
- MIXED ALLOCATION

The Board of Directors may, at any time, create additional Sub-Funds, whose investment objectives may differ from those of the Sub-Funds then existing. Upon creation of new Sub-Funds, the Prospectus will be updated accordingly. The same applies in case of creation of Classes or Categories.

The Board of Directors has taken all reasonable care to ensure that the facts stated herein are true and accurate in all material respects and that there are no other material facts the omission of which would make misleading any statement herein, whether of fact or opinion. The Board of Directors accepts responsibility accordingly.

The distribution of the Prospectus and the offering of the Shares may be restricted in certain jurisdictions. The Prospectus does not constitute an offer or solicitation in a jurisdiction where to do so is unlawful or where the person making the offer or solicitation is not qualified to do so or where a person receiving the offer or solicitation may not lawfully do so. It is the responsibility of any person in possession of the Prospectus and of any person wishing to apply for Shares to inform himself or herself of and to observe all applicable laws and regulations of relevant jurisdictions.

The Shares have not been registered under the United States Securities Act of 1933, as amended (the "1933 Act"); they may therefore not be publicly offered, sold, transferred or delivered, directly or indirectly, in the USA, or in any of its territories subject to its jurisdiction or to or for the benefit of a US Person as such expression is defined by Article 10 of the Articles and hereinafter. The Shares are not being offered in the USA, and may be so offered only pursuant to an exemption from registration under the 1933 Act and with the consent of the Fund, and have not been registered with the Securities and Exchange Commission or any state securities commission nor has the Fund been registered under the Investment Company Act of 1940, as amended (the "1940 Act"). No transfer or sale of the Shares shall be made unless, among other things, such transfer or sale is exempt from the registration requirement of the 1933 Act and any applicable state securities laws or is made pursuant to an effective registration statement under the 1933 Act and such state securities laws and would not result in the Fund becoming subject to registration or regulation under the 1940 Act. Shares may furthermore not be sold or held either directly or indirectly by nor to the benefit of, among others, a citizen or resident of the USA, a partnership organized or existing in any state, territory or possession of the USA or other areas subject to its jurisdiction, an estate or trust the income of which is subject to United States federal income tax regardless of its source, or any corporation or other entity organized under the laws of or existing in the USA or any state, territory or possession thereof or other areas subject to its jurisdiction (a "US Person"). The sale and transfer of Shares to US

Persons is restricted and the Fund may redeem Shares held by a US Person or refuse to register any transfer to a US Person as it deems appropriate to assure compliance with the 1933 Act and furthermore with the Foreign Account Tax Compliance Act

The Foreign Account Compliance Act (“**FATCA**”), a portion of the 2010 Hiring Incentives to Restore Employment Act, became law in the United States in 2010. It requires financial institutions outside the US (“foreign financial institutions” or “FFIs”) to pass information about “Financial Accounts” held by “Specified US Persons”, directly or indirectly, to the US tax authorities, the Internal Revenue Service (“IRS”) on an annual basis. A 30% withholding tax is imposed on certain US source income of any FFI that fails to comply with this requirement. On 28 March 2014, the Grand-Duchy of Luxembourg entered into a Model 1 Intergovernmental Agreement (“IGA”) with the United States of America and a memorandum of understanding in respect thereof. The Fund would hence have to comply with such Luxembourg IGA as implemented into Luxembourg law by the Law of 24 July 2015 relating to FATCA (the “FATCA Law”) in order to comply with the provisions of FATCA rather than directly complying with the US Treasury Regulations implementing FATCA. Under the FATCA Law and the Luxembourg IGA, the Fund may be required to collect information aiming to identify its direct and indirect shareholders that are Specified US Persons for FATCA purposes (“FATCA reportable accounts”). Any such information on FATCA reportable accounts provided to the Fund will be shared with the Luxembourg tax authorities which will exchange that information on an automatic basis with the Government of the United States of America pursuant to Article 28 of the convention between the Government of the United States of America and the Government of the Grand-Duchy of Luxembourg for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes in Income and Capital, entered into in Luxembourg on 3 April 1996. The Fund intends to comply with the provisions of the FATCA Law and the Luxembourg IGA to be deemed compliant with FATCA and will thus not be subject to the 30% withholding tax with respect to its share of any such payments attributable to actual and deemed U.S. investments of the Fund. The Fund will continually assess the extent of the requirements that FATCA and notably the FATCA Law place upon it.

To ensure the Fund’s compliance with FATCA, the FATCA Law and the Luxembourg IGA in accordance with the foregoing, the management company of the Fund may:

- a) request information or documentation, including W-8 tax forms, a Global Intermediary Identification Number, if applicable, or any other valid evidence of a shareholder’s FATCA registration with the IRS or a corresponding exemption, in order to ascertain such shareholder’s FATCA status;
- b) report information concerning a shareholder and his account holding in the Fund to the Luxembourg tax authorities if such account is deemed a FATCA reportable account under the FATCA Law and the Luxembourg IGA;
- c) report information to the Luxembourg tax authorities (*Administration des Contributions Directes*) concerning payments to shareholders with FATCA status of a non-participating foreign financial institution;
- d) deduct applicable US withholding taxes from certain payments made to a shareholder by or on behalf of the Fund in accordance with FATCA, the FATCA Law and the Luxembourg IGA; and
- e) divulge any such personal information to any immediate payor of certain U.S. source income as may be required for withholding and reporting to occur with respect to the payment of such income.

The Fund is responsible for the treatment of the personal data provided for in the FATCA Law.

The Prospectus may not be delivered to ineligible investors or to any person who may not legally be able to receive it or in respect of whom a sales solicitation is unlawful (collectively the “unauthorised persons”).

The Board of Directors will demand the immediate refunding of the Shares bought or held by an unauthorised person, including by investors who would have become unauthorised persons after the acquisition of the Shares.

Shareholders shall notify the Fund and/or the Registrar and Transfer Agent (as defined hereafter) i) if they become unauthorised persons or ii) if they hold Shares in the Fund in breach of the applicable laws and regulations, the Prospectus or the Articles, or iii) in any circumstances which may affect the taxation of and/or have legal and/or regulatory consequences for the Fund or the shareholders or which may otherwise have a negative impact on the Fund or the other shareholders.

The value of the Shares may fall as well as rise and a shareholder on transfer or redemption of Shares may not get back the amount he or she initially invested. Income from the Shares may fluctuate in money terms and changes in rates of exchange may cause the value of Shares to go up or down. The levels and basis of, and reliefs from, taxation may change. There can be no assurance that the investment objectives of the Fund will be achieved.

Investors should inform themselves and should take appropriate advice on the legal requirements as to possible tax consequences, foreign exchange restrictions or exchange control requirements which they might encounter under the laws of the countries of their citizenship, residence or domicile and which might be relevant to the subscription, purchase, holding, conversion, redemption or disposal of the Shares.

All references in the Prospectus to:

- “EUR”, “Euro” or “euros” or “€” refer to the currency of the European Union Member States participating in the single currency;
- “Business Day” refers to any full day on which banks are open for business in Luxembourg.

Copies of the Prospectus can be obtained on the conditions indicated above from the Fund’s registered office or from the Management Company’s registered office.

Enquiries or Complaints

Any investor enquiries or complaints should be submitted to the Management Company at the following address: compliance@aaml.lu and any response will be made in writing.

The complaints handling policy established by the Management Company may be requested, free of charge, by contacting the Management Company at the email address compliance@aaml.lu or through the following website: www.andbank.com.

Benchmark Regulation

Regulation (EU) 2016/1011 of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the 'Benchmark Regulation') came into full effect on 1 January 2018. The Benchmark Regulation introduces a new requirement for all benchmark administrators providing indices which are used or intended to be used as benchmarks in the EU to be authorized or registered by the competent authority. In respect of the Funds, the Benchmark Regulation prohibits the use of benchmarks unless they are produced by an EU administrator authorized or registered by the European Securities and Markets Authority ('ESMA') or are non-EU benchmarks that are included in ESMA's public register under the Benchmark Regulation's third country regime.

At the date of this Prospectus, the Sub-Fund does not use any benchmark.

Data protection

Any information concerning Shareholders (the "Personal Data") and other related natural persons (together "the Data Subjects"), provided to, or collected by or on behalf of the Fund and the Management Company (directly from Data Subjects or from publicly available sources) will be processed by the latter as joint data controllers (the "Controllers" – contact details available at the registered office of the Fund in compliance with applicable data protection laws, in particular Regulation (EU) 2016/679 of 27 April 2016, the "General Data Protection Regulation" (together the "Data Protection Legislation").

Failure to provide certain requested Personal Data may result in the impossibility to invest or maintain Shares of the Fund.

Personal Data will be processed by the Controllers and disclosed to, and processed by, services providers acting as processors on behalf of the Controllers such as the Registrar and Transfer Agent, the Administrative Agent, the Paying Agent, the Auditor, legal and financial advisers and when applicable the Distributor and its appointed sub-distributors if any. (the "Processors") for the purposes of (i) offering and managing investments and performing the related services (ii) developing and processing the business relationship with the Processors, and (iii) if applicable direct or indirect marketing activities (the "Purposes").

Personal Data will also be processed by the Controllers and Processors to comply with legal or regulatory obligations applicable to them such as cooperation with, or reporting to, public authorities including but not limited to legal obligations under applicable fund and company law, anti-money laundering and counter terrorist financing (AML-CTF) legislation, prevention and detection of crime, tax law such as reporting to the tax authorities under FATCA, the Common Reporting Standard (CRS) or any other tax identification legislation to prevent tax evasion and fraud as applicable (the Compliance Obligations"). The Controllers and/or the Processors may be required to report information (including name and address, date of birth and tax identification number (TIN), account number, balance on account, the "Tax Data") to the Luxembourg tax authorities (Administration des contributions directes) which will exchange this information with the competent authorities in

permitted jurisdictions (including outside the European Economic Area) for the purposes provided for in FATCA and CRS or equivalent Luxembourg legislation. It is mandatory to answer questions and requests with respect to the Data Subjects' identification and Shares held in the Fund and, as applicable, FATCA and/or CRS and failure to provide relevant Personal Data requested by the Controllers or the Processors in the course of their relationship with the Fund may result in incorrect or double reporting, prevent them from acquiring or maintaining their Shares of the Fund and may be reported to the relevant Luxembourg authorities.

In certain circumstances, the Processors may also process Personal Data of Data Subjects as controllers, in particular for compliance with their legal obligations in accordance with laws and regulations applicable to them (such as anti-money laundering identification) and/or order of any competent jurisdiction, court, governmental, supervisory or regulatory bodies, including tax authorities.

Communications (including telephone conversations and e-mails) may be recorded by the Controllers and Processors including for record keeping as proof of a transaction or related communication in the event of a disagreement and to enforce or defend the Controllers' and Processors' interests or rights in compliance with any legal obligation to which they are subject. Such recordings may be produced in court or other legal proceedings and permitted as evidence with the same value as a written document and will be retained for a period of 10 years starting from the date of the recording. The absence of recordings may not in any way be used against the Controllers and Processors.

Personal Data of Data Subjects may be transferred outside of the European Union (including to Processors), in countries which are not subject to an adequacy decision of the European Commission and which legislation does not ensure an adequate level of protection as regards the processing of personal data.

Insofar as Personal Data is not provided by the Data Subjects themselves the Shareholders represent that they have authority to provide such Personal Data of other Data Subjects. If the Shareholders are not natural persons, they undertake and warrant to (i) adequately inform any such other Data Subject about the processing of their Personal Data and their related rights as described in the Prospectus and (ii) where necessary and appropriate, obtain in advance any consent that may be required for the processing of the Personal Data.

Personal Data of Data Subjects will not be retained for longer than necessary with regard to the Purposes and Compliance Obligations, in accordance with applicable laws and regulations, subject always to applicable legal minimum retention periods.

Detailed data protection information is contained in the information notice, in particular in relation to the nature of the Personal Data processed by the controllers and Processors, the legal basis for processing, recipients, safeguards applicable for transfers of Personal Data outside of the European Union and the rights of Data Subjects (including the rights to access to or have Personal Data about

them rectified or deleted, ask for a restriction of processing or object thereto, right to portability, right to lodge a complaint with the relevant data protection supervisory authority and right to withdraw consent after it was given, etc.) and how to exercise them.

The full information notice is also available on demand by contacting the Fund or the Management Company at 4 rue Jean Monnet, L-2180 Luxembourg.

The Shareholders' attention is drawn to the fact that the data protection information contained herein and in the Prospectus is subject to change at the sole discretion of the Controllers.

Shares of the various Sub-Funds must be subscribed solely on the basis of the information contained in the Prospectus and the relevant Key Information Document ("KID"). The KID is a pre-contractual document that contains key information for investors. It includes appropriate information about the essential characteristics of each Class of a particular Sub-Fund.

If you are considering subscribing for Shares, you should first read the relevant KID carefully together with the Prospectus and more particularly its Part B which includes in particular information on the various Sub-Funds' investment policies, and you should also consult the Fund's latest published annual and semi-annual reports, copies of which are available from the following website: www.andbank.com; from local agents, if any, or from the entities marketing the Shares, and may be obtained upon request, free of charge, at the Fund's registered office.

PART A - FUND INFORMATION

I. INVESTMENT OBJECTIVES, POLICIES AND RESTRICTIONS

A. General Provisions

1. The Fund's objectives

The Fund intends to offer its shareholders investments in a selection of negotiable securities and other eligible financial assets combining high growth potential and a high degree of liquidity. The choice of assets will not be limited either geographically or as regards either the types of negotiable securities and other eligible financial assets or the currencies in which they are expressed, except for any applicable investment restrictions. The investment policy and more particularly the duration of investments will be adjusted in line with the current political, economic, financial and monetary outlook at any given time.

2. The Fund's investment policy

The Fund intends to achieve the above objectives mainly by the active management of portfolios of eligible financial assets. In accordance with the conditions and limits set out in Sections B to D below, and in compliance with the investment policy of each Sub-Fund as defined in Part B of the Prospectus, the eligible financial assets may consist of transferable securities, money market instruments, units of UCITS and/or UCIs, bank deposits and/or financial derivative instruments.

Each Sub-Fund may use financial derivative instruments for investment and hedging purposes, under the conditions and within the limits laid down by law, regulation and administrative practice, as well as under Part B of the Prospectus and the relevant Sections B to D below.

Each Sub-Fund shall ensure that its global exposure relating to financial derivative instruments does not exceed the total net value of its portfolio. Global exposure is a measure designed to limit the leverage generated by each Sub-Fund through the use of financial derivative instruments. The method retained by the Management Company in order to determine the global risk exposure of each Sub-Fund is set out for each Sub-Fund in Part B of the Prospectus.

Each Sub-Fund has a different investment policy in terms of the type and proportion of eligible financial assets and/or in terms of geographical, industrial or sectoral diversification.

The investment policies and structure applicable to the various Sub-Funds created by the Board of Directors are described hereinafter in Part B of the Prospectus.

3. The Fund's risk profile

Each Sub-Fund's assets are subject to market fluctuations and the risks inherent in any investment in financial assets.

No guarantee can be given that the Fund's objectives will be achieved and that investors will recover the amount of their initial investment.

The conditions and limits laid down in Sections B to D below are intended however to ensure a certain portfolio diversification so as to reduce such risks.

4. Risk Factors

Investors should note the following risk considerations before making any decision to invest in the Fund. It should be noted that the risk factors set out below do not purport to be a complete explanation of the risks involved in investing in the Fund. Prospective investors should read the entire document and consult with their legal, tax and financial advisers before making any investment decision.

General risks

The below risk factors apply to all Sub-Funds indiscriminately and shall be considered regardless of their specific investment policies and strategies.

General Investment Activity Risks

An investment in a Sub-Fund is suitable only for investors who are capable of evaluating the risks and merits of such investment and who have sufficient resources to bear any loss which might result from such investment. Potential investors should consult their stockbroker, bank manager, lawyer, accountant or their independent financial adviser before investing.

Investment in the Fund should be regarded as long term in nature. There can be no guarantee that any appreciation in the value of any Sub-Fund's investments will occur and investors may not get back the full value of their investment. Although it will be the policy of each Sub-Fund to diversify its investment portfolio, a Sub-Fund may at certain times hold relatively few investments. A Sub-Fund could be subject to significant losses if it holds a large position in a particular investment that declines in value or is otherwise adversely affected, including default of the issuer.

There can be no guarantee that the investment objectives of the Fund will be met.

The past performance of assets managed by the Sub-Funds are not necessarily guides to the future performance of these Sub-Funds nor to any particular other Sub-Fund.

All investments involve risks and there can be no guarantee against loss resulting from an investment in any Shares, nor can there be any guarantee that a Sub-Fund's investment objectives will be attained in respect of its overall performance. Investors should therefore ensure (prior to any investment being made) that they are satisfied with the risk profile of the overall objectives disclosed in Part B of the Prospectus.

In addition to the opportunities for price gains and earnings, investment in securities also involves risks because the prices could fall below the purchase price paid. Factors affecting the value of securities in some markets and under certain situations cannot easily be determined and the value of such investments may decline or be reduced to zero.

The Fund employs a risk management process that enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each Sub-Fund. The Fund will also employ, if applicable, a process for accurate and independent assessment of the value of any OTC derivative instruments. Further information is set out under Section B) 5 'The Fund's risk management' on page [23] below.

Regulatory Risks

The Fund is domiciled in Luxembourg and investors should note that all the regulatory protections provided by their local regulatory authorities may not apply. Investors should consult their financial or other professional adviser for further information in this area.

Taxation

Any change in the Fund's tax status or in taxation legislation could affect the value of the investments held by and the performance of the Fund. Representations in this Prospectus concerning the taxation of investors in Shares are based upon current tax law and practice which is subject to change.

A Sub-Fund may from time to time purchase investments that will subject the Fund to withholding taxes or exchange controls in various jurisdictions. In the event that withholding taxes or exchange controls are imposed with respect to any of the Fund's investments, the effect generally reduces the income or proceeds received by the Fund on its investments.

See also chapter XIV "Taxation" in this Part A of the Prospectus.

Risk Reduction and Risk Avoidance Measures

The portfolio manager uses modern methods of analysis to optimise the opportunity/risk ratio of an investment in securities. Through shifting and temporarily higher cash balances, the portion of the Fund not invested in securities serves the objectives of the investment policy in that it reduces the effect of possible price falls in securities investments. Nevertheless, no assurance can be given that the objectives of the investment policy will be reached.

Conflicts of Interest

The Board of Directors, the Investment Managers, the Investment Advisors, the Distributors, the Management Company, the Administrative Agent, the Registrar and Transfer Agent, the Domiciliary and Corporate Agent and the Depositary and their respective affiliates, officers, directors and shareholders, employees and agents (collectively the 'Parties') are or may be involved in other financial, investment and professional activities which may on occasion cause a conflict of interest with the management of the Fund and/or their respective roles with respect to the Fund. These activities may include managing or advising other funds, including other

underlying funds, purchases and sales of securities, investment management services, brokerage services, valuation of unlisted securities (in circumstances in which fees may increase as the value of assets increases) and serving as directors, officers, advisers or agents of other funds or companies, including funds or companies in which the Fund may invest. The attention of the investors is specifically drawn to the fact that the Board of Directors may decide to open cash accounts with Andbank Luxembourg S.A. in accordance with article 22 (4) of the UCITS Directive.

In particular, the portfolio manager may be involved in advising or managing other investment funds, including other underlying funds, which have similar or overlapping investment objectives to or with the Fund or Sub-Funds. Each of the parties will use its reasonable endeavours to ensure that the performance of their respective duties will not be impaired by any such involvement they may have and that any conflicts which may arise will be resolved fairly and in the best interests of shareholders. The portfolio manager will endeavor to ensure a fair allocation of investments among each of its clients. Further details of the Management Company's Conflicts of Interest policy are available on request.

Suspension of Share Dealings

Investors are reminded that in certain circumstances their right to redeem Shares may be limited (see page [49] under "Redemption restrictions").

Fees and Expenses

Particular attention should be paid to the level of fees and expenses charged as their proportionate effect may be determined by Sub-Fund size.

Performance Fee Risk

The existence of a performance fee on a particular Sub-Fund has the benefit that it aligns the portfolio manager's interests more with that of the shareholders. However, because part of the portfolio manager's remuneration is calculated by reference to the performance of the relevant Sub-Fund, there is the possibility that the portfolio manager will be tempted to make investments that are riskier and more speculative than if the remuneration was linked purely to the size of that Sub-Fund.

Risk of no Equalisation for Performance Fee

The method of calculating any performance fee may give rise to the risk that a shareholder redeeming Shares may still incur a performance fee in respect of those Shares, even though a loss in investment capital has been suffered by the redeeming shareholder.

Segregation of Assets and Liabilities between Classes

The Fund is composed of the different Sub-Funds listed in Part B of the Prospectus entitled "Specific Information", each Sub-Fund corresponding to a distinct part of the assets and liabilities of the Fund. Whilst each Sub-Fund may segregate the assets and liabilities attributable to each Class it maintains in its books and records, any third party creditor will be a creditor of the relevant Sub-Fund. For example, if a particular Sub-Fund defaults under any liability owed to one or more

third parties where the relevant liability is attributable to a particular Class, such third party or third parties will have recourse to all the assets of the relevant Sub-Fund (i.e. the assets attributable to all Classes, and not just the assets of the Class to which the relevant liability is attributable in the books and records of the Sub-Fund) to satisfy such liability or liabilities.

Early Termination of a Sub-Fund

The Board of Directors may terminate a Sub-Fund in accordance with the provisions set forth under Section entitled “Liquidation, Merger and Split of Sub-Funds, Classes or Categories” under chapter XV “General Information” in this Part A of the Prospectus. In the event of early termination, the Sub-Fund concerned would have to distribute to the shareholders their pro rata interest in the assets of that Sub-Fund. It is possible that at the time of such sale or distribution, certain investments held by such Sub-Fund concerned may be worth less than the initial cost of such investments, thereby resulting in a substantial loss to the Shareholders concerned.

Risk related to Foreign Account Tax Compliance Act ('FATCA')

The withholding tax regime of FATCA became effective in phases since 1 July 2014. Although the Fund will attempt to satisfy any obligations imposed on it to avoid the imposition of the FATCA withholding tax, no assurance can be given that the Fund will be able to satisfy these obligations. If the Fund becomes subject to a withholding tax as a result of the FATCA regime, the value of the Shares held by the shareholders concerned may be adversely impacted to a significant extent.

Sustainability risk

The Management Company reviews and assesses potential sustainability risks within the meaning of the EU Regulation 2019/2088 dated March 10, 2021 on the sustainability related disclosures in the financial services sector and related technical standards (“the SFDR Regulation”) as part of its decision-making processes with respect to the investments made and/or to be made by the Management Company or the Investment Managers if any and will integrate such review within its internal procedures and policies. Such review will be performed by the risk management team of the Management Company. Thereafter, during the ex-ante risk assessment process the Management Company or the Investment Managers if any will consider those risks and assess if those will have a relevant impact on the investment. If those risks are relevant, the risk management team also performs a regular (ex-post) review of those risks as part of the discharge of its duties.

More information regarding the Sustainability Risks management approach can be found under the Sustainability risk policy available on the website of the Management Company on www.andbank.com.

As part of a first review performed, the Investments made and/or to be made by the Management Company are not likely to be affected by sustainability risks and that if any such sustainability risk arises, it is not likely to have a more materially adverse effect on the Fund's returns than any other normal market or external risk. Investors should note that it is very difficult to assess with any reasonable certainty whether there exists, or the likely outcome of, any sustainability risk on the Investments and/or the risk of occurrence of any such risk. The sustainability risk exposure assessment of the financial product will be performed on a periodic basis to ensure that the Management Company is able to identify a risk becoming relevant and affect the Fund's return.

Based on this assessment, if a sustainability risk is identified as being relevant and having an impact on the financial return, the present Prospectus will be adapted accordingly.

The Management Company is responsible for the consideration of the principal adverse impact of the investment decision on the sustainability factors. The Management Company decides not to currently consider the adverse effects of investment decisions on sustainability factors for the Fund as defined in Article 7 (2) of the SFDR Regulation.

As per the current investment strategy and the composition of the portfolio, the Management Company assesses that such impact deems not to be relevant.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Specific risks

The below risk factors may apply to the Sub-Funds in the context of their specific terms and investment policies and strategies.

Financial Derivative Instruments Risks

A Sub-Fund may invest in financial derivative instruments, comprising options, futures, index futures and currency forward contracts for investment, hedging and efficient portfolio management. Furthermore, the Sub-Funds may invest in underlying funds which use financial derivative instruments extensively or primarily for investment purposes.

The risks associated with using financial derivative instruments (whether for hedging, efficient portfolio management and investment purposes) are set out in the paragraphs titled “Risks Related to Investments in Equity Related Securities”, “Options”, “Financial Futures Contracts”, “Swaps”, “Portfolio swaps and Participation Notes” and “Possible Losses in Securities Option Transactions, Financial Futures Contracts, Option Transactions on Financial Futures Contracts and Securities Index Options” below.

Investment funds using financial derivative instruments for investment purposes are generally associated with greater risk than funds which use financial derivative instruments only for efficient portfolio management or hedging purposes. These significant additional risks include, for example, market counterparty risk, leverage risk, liquidity risk and operational risk. Losses incurred as a consequence of the use of financial derivative instruments for investment purposes may be substantial and could lead to total capital loss for investors in the Sub-Fund(s) concerned. There is a risk of total / significant loss resulting from the use of financial derivative instruments for investment purposes.

Where a Sub-Fund enters into OTC derivative contracts, it will be exposed to the risk that the counterparty may default on its obligations to perform under the relevant contract. Further, there is risk with such investments, that the more bespoke they become and the more complex they become the harder it is to unwind the positions at market prices.

Basis risk is the risk of loss due to a divergence in the difference between two rates or prices. There will be occasions where a Sub-Fund will use financial derivative instruments to hedge out existing market exposure to a particular basket of stocks. Although the underlying constituents

of the financial derivative instrument used may be similar to the basket of stocks being hedged against, it is likely that there will be differences in the composition. The hedging arrangement may therefore not fully offset the price change in the basket of stocks being hedged against.

There is also a risk that the portfolio manager will have insufficient cash in a Sub-Fund to meet the margin calls necessary to sustain its position in a derivative contract in which case the counterparty will require the investor to place a margin payment with them at the outset of the contract, and this margin payment will be subject to additional top-ups if and when the market moves against the investor. In such circumstances the portfolio manager will either have to close out the position, thus realising a loss, or dispose of other assets in such Sub-Fund to raise the required margin call, thus potentially adversely affecting the investment composition of such Sub-Fund.

Risks Related to Investments in Equities (including ordinary and preference shares)

Experience has shown that equities and securities of a share-like character are subject to strong price fluctuations. That is why they offer the possibility of considerable price gains, but also involve increased risks. For example, the prices of equities and securities of a share-like character are influenced above all by the profits or otherwise of individual enterprises and sectors as well as macro-economic developments and political perspectives which determine the expectations of the securities markets and thus the movement of prices. All factors affecting the value of securities in some markets and under certain situations cannot easily be determined and the value of such investments may decline or be reduced to zero.

Risks Related to Investments in Fixed-Interest Securities (including convertible debt securities)

Price changes in fixed-interest securities are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. Fixed-interest securities could suffer when capital market interest rates rise, while they could increase in value when capital market interest rates fall. The price changes also depend on the term or residual time to maturity of the fixed-interest securities. In general, fixed-interest securities with shorter terms have less price risks than fixed-interest securities with longer terms. However, they generally have lower returns and, because of the more frequent due dates of the securities portfolios, involve higher re-investment costs.

Risks Related to Investments in Warrants

In addition to the above risks involved with securities and exchange rate changes, warrants carry the risk, but also the opportunity, of what is known as leverage. This leverage is produced, for example, with call warrants through the lower capital investment when the warrants are purchased compared with a direct purchase of the underlying assets. The same applies for put warrants. The greater the leverage, the greater the change of price of the warrant in the event of a change in the prices of the underlying assets (in comparison to the subscription price set forth in the option conditions). The opportunities and risks of warrants increase as the leverage increases. Since warrants are generally issued only for a limited term, it cannot be ruled out that they will be valueless at the date of maturity if the price of the underlying assets falls below the subscription price fixed when the call warrants were issued or exceeds the subscription price fixed when the put warrants were issued.

Risks Related to Investments in Fixed-Interest Securities Without Regular Interest Payments and Zero Bonds

Particular attention must be paid to observing the credit worthiness and assessing the issuer of interest-bearing securities without regular interest payments and zero bonds. In times of climbing capital market interest rates, it may be difficult to trade in such bonds, particularly because of their comparatively long term and the absence of continual interest payments.

Risks Related to Investments in Equity Related Securities

In accordance with the investment policies and restrictions of the Fund, certain Sub-Funds may invest in equity related securities, including but not limited to financial derivative instruments, options, swaps, futures and forward contracts, warrants, convertible bonds and preference shares. Equity related securities may not be listed and are subject to the terms and conditions imposed by their issuers. There may be no active market in equity related securities and therefore investments in equity related securities can be illiquid. In order to meet redemption requests, the Fund relies upon the issuers of the equity related securities to quote a price to unwind any part of the equity related securities that will reflect the market liquidity conditions and the size of the transaction. There is a risk that the issuers of equity related securities will not settle a transaction due to a credit or liquidity problem and the relevant Sub-Funds may suffer a loss (including a total loss). Investments in equity related securities do not entitle the investors to the beneficial interest in the underlying securities nor to make any claim against the company issuing the securities. Fluctuations in the exchange rate between the denomination currency of the underlying Shares and the equity related securities will affect the value of the equity related securities, the redemption amount and the distribution amount on the equity related securities.

Risks related to the Use of Financial Derivative Instruments for Hedging / Efficient Portfolio Management Purposes

In adverse circumstances, the Fund's use of financial derivative instruments may become ineffective in hedging / efficient portfolio management and the Fund may suffer significant losses in relation to use of financial derivative instruments.

Risks Related to Investments in Bonds

Comparatively, the bond market has been less vulnerable to price swings or volatility than other investment products as most bonds pay investors a fixed rate of interest income that is also backed by a promise from the issuer. Apart from the general investment risks, there are also risks which arise from investing in bonds and these include the interest rate risk (bond prices usually fall when the interest rate rises); inflation risk (this usually reduces the purchasing power of a bond) and market risk (the risk that the bond market as a whole would decline).

Depositary Receipts

Investment into a given country may be made via direct investments into that market or by depositary receipts traded on other international exchanges in order to benefit from increased liquidity in a particular security and other advantages. A depositary receipt admitted to the official listing on a stock exchange may be deemed an eligible transferable security regardless of the

eligibility of the market in which the security to which it relates normally trades.

Credit and Counterparty Risks

Even when the securities to be acquired are selected carefully, the credit risk, i.e. the risk of loss through the inability of issuers to pay (issuer risk), cannot be excluded. The value of a Sub-Fund may be adversely affected if any of the institutions with whom the assets of the Sub-Fund are invested or deposited suffers insolvency or other financial difficulties. Such deposits may include margin payments to derivative counterparties and cash held on deposit at bank.

The Sub-Funds may invest in financial derivative instruments, comprising options, futures, index futures and currency forward contracts for hedging and efficient portfolio management, as more fully described in the investment policy of each Sub-Fund. There is a risk that the use of such instruments will not achieve the goals aimed at. Also, the use of swaps and other derivative contracts entered into by private agreements may create a counterparty risk for the Sub-Fund concerned.

In certain circumstances, there may be a credit risk with regard to parties with whom a Sub-Fund trades and a Sub-Fund may also bear the risk of settlement default. These risks may differ materially from those entailed in exchange-traded transactions which generally are backed by clearing organisation guarantees, daily mark-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. It may not always be possible for the securities and other assets deposited with depositaries or brokers to be clearly identified as being assets of a Sub-Fund and such Sub-Fund may be exposed to a credit risk in those situations. In addition, there may be practical or time problems associated with enforcing a Sub-Fund's rights to its assets in the case of an insolvency of any such party. In such circumstances it is possible that a Sub-Fund will not be able to recover any debt in full, or at all.

These risks are mitigated by the fact that the counterparties must be institutions subject to prudential supervision and that the counterparty risk on a single entity must be limited in accordance with the investment restrictions. The secondary market price of such financial derivative instruments will vary in accordance with the market's perception of the credit worthiness of the issuer.

In the event of failure of the counterparty the Fund may only rank as an unsecured creditor in respect of sums due from the issuer or broker in question, meaning that the Fund may be unable to recover part or all of the assets exposed to that counterparty and any such recovery may be significantly delayed. Such delay or loss would be to the detriment of the Net Asset Value of Shares in the relevant Sub-Fund.

Liquidity Risk

A Sub-Fund's ability to invest in and to liquidate its assets may, from time to time, be restricted by the liquidity of the market for those assets. Regulated markets may undergo temporary or prolonged closures and may impose a suspension or limitation on trading in a security traded on the relevant exchange or market.

In addition, certain listed transferable securities and money market instruments, particularly securities and money market instruments of smaller capitalised issuers, may from time to time

lack an active secondary market and may be subject to more abrupt or erratic price movements than transferable securities or money market instruments of larger, more established companies or stock market averages in general. These difficulties may be exacerbated during periods of extreme market volatility.

Furthermore, redemptions by shareholders could require the liquidation of securities positions more rapidly than would otherwise be desirable, which could adversely affect the value of the Shares of both the redeeming shareholders and the remaining shareholders. For example, such redemptions could require liquidations of the positions in a short time frame, which could reduce the value of certain of a Sub-Fund's investments, satisfy the available demand in the market, thus impairing the ability of such Sub-Fund to liquidate its investments or in certain instances force such Sub-Fund to liquidate positions at a time other than when a Sub-Fund would elect to do so.

Sector and/or Geographical Concentration

Sub-Funds which specialise in investing in a particular market sector or geographical region are likely to be more volatile than funds with a broader range of investments. This risk is greater in relation to investment in emerging market countries which may experience political and economic changes.

Options

Options are associated with particular risks which can differ in importance, depending on the position taken:

- The purchase price of a call or put option is lost on the date of maturity.
- If a call option is sold, there is a risk that a Sub-Fund will no longer be able to participate in especially strong appreciation of the asset. If put options are sold, there is a risk that such a Sub-Fund will be obligated to acquire assets at the exercise price, even though the market value of these assets is significantly lower.
- The value of a Sub-Fund can be more strongly influenced through the leveraging of options than would be the case if assets were acquired directly.

Financial Futures Contracts

Financial futures contracts are associated with considerable opportunities as well as risks, because only a fraction of the relevant contract size (initial deposit) must be paid immediately. If the expectations of the portfolio manager are not fulfilled, the difference between the price at the time of conclusion and the market price must be borne by the relevant Sub-Fund by no later than the due date of the transaction. The amount of the possible loss is thus not known in advance and may exceed any collateral provided.

Portfolio swaps and Credit Default Swaps

Swaps involve a particular contracting party risk in that the contracting party may be unable to meet its payment obligations, or may do so only partially or late. Swaps also involve a market

risk arising from fluctuations in exchange rates and interest rates.

In the case of swaps which convert into foreign currency, there are also exchange rate opportunities and risks. Moreover, these swaps are subject to what is called a transfer risk, something which also exists with other swaps involving cross-border transactions.

Credit default swaps may trade differently from the funded securities of the reference entity. In adverse market conditions, the basis (difference between the spread on bonds and the spread on credit default swaps) can be significantly more volatile than funded securities.

Participation Notes

Participation notes involve a particular contracting party risk in that the contracting party may be unable to meet its payment obligations, or may do so only partially or late. They also involve a market risk arising from fluctuations in exchange rates and interest rates.

In the case of participation notes which convert into foreign currency, there are also exchange rate opportunities and risks. Moreover, these participation notes are subject to what is called a transfer risk, something which also exists with other participation notes involving cross-border transactions.

Possible Losses in Securities Option Transactions, Financial Futures Contracts, Option Transactions on Financial Futures Contracts and Securities Index Options

Securities option dealings, financial futures contracts and option dealings on financial futures contracts and securities index options (option rights and warrants) are all forward exchange transactions.

However, since the possible profits arising from such transactions must be set against high possible losses, the investor must realise that:

- the time-limited rights acquired from forward exchange transactions can collapse or suffer a reduction in value;
- the amount of the possible loss is not known in advance and can exceed any collateral provided;
- it may not be possible, or may only be possible at a loss, to effect dealings through which the risks from forward exchange transactions which have been effected are to be excluded or limited; and
- in addition to the above risks, the exercising of two linked forward exchange transactions involves additional risks which depend on the financial futures contracts/securities index options thus created and may result in a loss far above the original investment in the price paid for the option right or warrant.

Currency Exposure and Passive Currency Hedging

Each Class of each Sub-Fund will have its own Class currency and each Sub-Fund will have its

own reference currency. The Shares of each Class will be issued and redeemed by reference to the Class currency concerned. The assets of each Sub-Fund may, however, be invested in securities and other investments that are not denominated in its Class currency and/or reference currency. Accordingly, the value of such assets may be affected favourably or unfavourably by fluctuations in currency rates and therefore each Sub-Fund will necessarily be subject to foreign exchange risks relative to its Class currency and/or reference currency.

In particular, an investor who acquires Shares of a Sub-Fund will be subject to foreign exchange risk in respect of those assets of such Sub-Fund, which are denominated in any currency other than the reference currency of accounting in such Sub-Fund (irrespective of whether the currency of investment was also the Class currency and/or reference currency).

An investor whose assets and liabilities are predominantly in another currency should take into account the potential risk of loss (or gain) arising from fluctuations in value between the currency denomination of the assets of a Sub-Fund in which such investor invests and such investor's own currency of investment.

An investor who subscribes for Shares, or requests that redemption payments be made, in a currency other than the reference currency of the relevant Sub-Fund should also take into account the potential risk of loss arising from fluctuations in value between the relevant Class currency and/or reference currency and the currency that such investor used to subscribe for Shares or the currency in which such investor requests that redemption payments be made.

Passive currency hedging strategies may be used by the portfolio manager, at its sole discretion, to seek to reduce the impact of adverse movements between the Class currency and/or reference currency of a Sub-Fund and the currencies of the assets in which a Sub-Fund is invested. This may involve the use of foreign exchange transactions and/or currency derivatives. However, there is no guarantee that any hedging techniques will be employed or, if employed, that they will be effective in managing the currency exposures to which a Sub-Fund may be subject.

Each Class will be responsible for any currency hedging costs applicable to the assets attributable to it.

Exchange Rate Hedging Transactions

Exchange rate hedging transactions serve to reduce exchange rate risks. As these hedging transactions only protect a Sub-Fund to a limited extent to one part of the exchange rate losses, it cannot be ruled out that exchange rate fluctuations can have a negative impact on the performance of such Sub-Fund.

Future Exchange Transactions

The costs and possible losses arising in future exchange transactions through the purchase of the corresponding option rights and warrants reduce the operating profit of the Fund. In this respect the notes regarding securities option transactions and financial futures contracts also apply here.

Risks related to Investments in Emerging and Less Developed Markets

In emerging and less developed markets, the legal, judicial and regulatory infrastructure is still developing but there is much legal uncertainty both for local market participants and their overseas counterparts. Therefore, investing in these markets involves certain risks and special considerations not typically associated with investment in major western jurisdictions. Some markets may carry higher risks for investors who should therefore ensure that, before investing, they understand the risks involved and are satisfied that an investment is suitable as part of their portfolio. Investments in emerging and less developed markets should be made only by sophisticated investors or professionals, such as the portfolio manager, who have independent knowledge of the relevant markets, are able to consider and weigh the various risks presented by such investments, and have the financial resources necessary to bear the substantial risk of loss of investment in such investments.

In general, the securities markets in the emerging and less developed markets are less developed than the major western securities markets. There is less state regulation and supervision of these securities markets, and less reliable information available to brokers and investors than in the major western markets and consequently less investor protection. Their accounting, auditing and financial reporting standards and requirements in those markets are in many respects less stringent and less consistent than those applicable in many major western countries. Corporate legislation in the emerging and less developed markets regarding the fiduciary responsibility of directors and officers and protection of shareholders is significantly less developed than in the major western jurisdictions and may impose inconsistent or even contradictory requirements on companies. In addition, less information is available to investors investing in securities of companies in those markets and the historic information which is available is not necessarily comparable or relevant to many major western countries.

Examples of economies that can be considered to be emerging market economies include, without limitation, countries in Asia, Latin America, the Middle East, southern and eastern Europe, the region formerly known as the USSR, and Africa. These include, again without limitation: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Morocco, Peru, Philippines, Poland, Russia, South Africa, Taiwan, Thailand, Turkey, Sri Lanka and Pakistan.

Political and Economic Risk Factors of Emerging Markets

There is in some emerging market countries, in which certain Sub-Funds may invest, a higher than usual risk of nationalisation, expropriation or confiscatory taxation, any of which might have an adverse effect on the value of investments in those countries. Emerging market countries may also be subject to higher than usual risks of political changes, government regulation, social instability or diplomatic developments (including war) which could adversely affect the economies of the relevant countries and thus the value of investments in those countries.

The economics of many emerging market countries can be heavily dependent on international trade and, accordingly, have been and may continue to be adversely affected by trade barriers, managed adjustments on relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade and international economic developments generally.

Foreign Investment Restrictions

There are, in certain of the countries in which investments of certain Sub-Funds are proposed, restrictions on investment by foreign investors. In addition, the ability of foreign investors, such as the Fund, to participate in privatisations in certain foreign countries may be limited by local law, or the terms on which the Fund may be permitted to participate may be less advantageous than those for local investors. These factors and any restrictions introduced in the future could limit the availability to the Fund of attractive investment opportunities.

Settlement and Custodial Risk

Settlement and safe custody of securities in certain emerging countries involve certain risks and considerations which do not normally apply when settling transactions and providing safe custody services in more developed countries. The Depositary will not have absolute liability for the acts, omissions or creditworthiness of local agents, depositaries, registrars or brokers involved in the safekeeping or the settlement of the assets of the Fund.

Small and Midsize Companies Risk

While smaller and midsize companies may offer substantial opportunities for capital growth, they also involve substantial risks and should be considered speculative. Historically, smaller and midsize company securities have been more volatile in price and less liquid than larger company securities, especially over the short term.

In addition, smaller and midsize companies may lack depth of management, be unable to generate funds necessary for growth or development, have limited product lines or be developing or marketing new products or services for which markets are not yet established and may never become established. Smaller and midsize companies may be particularly affected by interest rate increases, as they may find it more difficult to borrow money to continue or expand operations, or may have difficulty in repaying any loans which are floating rate.

These risks are typically increased for securities issued by smaller companies registered or performing a significant part of their activities in developing countries and emerging markets such as certain Asian markets, especially as the liquidity of securities issued by companies in such markets may be substantially smaller than with comparable securities in more developed countries.

Risks related to Investments in Russia

If investment in Russia is specifically authorised in the relevant Part B of the Prospectus, certain Sub-Funds may invest in securities listed on the RTS Stock Exchange, on the Moscow Interbank Currency Exchange in Russia and on any other Regulated Markets in Russia which may be recognised by the CSSF.

Investments in Russia are currently subject to certain heightened risks with regard to the ownership and custody of securities. In Russia, shareholdings are evidenced by entries in the books of a company or its registrar (which is neither an agent nor responsible to the Depositary). No certificates representing shareholdings in Russian companies will be held by the Depositary or any of its local correspondents or in an effective central depository system. As a result of this

system and the lack of effective state regulation and enforcement, the Sub-Funds could lose their registration and ownership of Russian securities through fraud, negligence or even mere oversight. However, in recognition of such risks, the Russian correspondent of the Depositary is following increased 'due diligence' procedures. The Russian correspondent has entered into agreements with Russian company registrars and will only permit investment in those companies that have adequate registrar procedures in place. In addition, the settlement risk is minimised as the Russian correspondent will not release cash until registrar extracts have been received and checked. In addition, Russian debt securities have an increased custodial risk associated with them as such securities are, in accordance with market practice, held in custody with Russian institutions which may not have adequate insurance coverage to cover loss due to theft, destruction or default.

The investment of certain Sub-Funds in Russia may become restricted by or subject to the restrictive measures that have been or will be taken against Russia. In particular, EU has recently taken measures (including the Council of the European Union Regulation (EU) No 833/2014 which implements Council Decision 2014/512/CFSP of 31 July 2014) that may lead to ban investments to be made by the Sub-Fund in Russia. There is also a high level of uncertainty as to whether further restrictive measures may be adopted. Accordingly, investors must be aware that the Fund's portfolio may be materially adversely affected by any such measures.

Risks related to Investments in China

In the People's Republic of China it is uncertain whether a court would protect a sub-fund's right to securities it may purchase via the China Interbank Bond Market or via the Shanghai-Hong Kong Shenzhen Stock Connect or other programs, whose regulations are untested and subject to change. The structure of these schemes does not require full accountability of some of its component entities and leaves investors such as the sub-funds with relatively little standing to take legal action in China. In addition, the Security exchanged in China may tax or limit profits, recall eligible stocks, set maximum trading volumes (at the investor level or at the market level) or may otherwise limit or delay trading. Specifically CIBM, the China Interbank Bond Market, is an OTC market, executing the majority of Chinese bond trading. Market volatility and potential lack of liquidity due to low trading volumes may cause prices of bonds to fluctuate significantly. The Management Company does limit investments to securities traded in People's Republic of China to China 'B' Shares (securities listed in foreign currencies in the exchanges and reserved to foreign investors) and/or any other equities and debt securities issued or settled in USD, EUR and/or GBP.

Risks of Investment in Chinese Securities:

The Sub-Funds may have indirect exposure to Chinese markets by investing in ADRs/GDRs, UCITS & UCIs, such investment is subject to emerging markets risks as well as China-specific risks. The value and performance of investments made in Chinese markets may be affected by uncertainties and sensitivity arising from the major change in economic, social and political policy in the People's Republic of China ("PRC").

In addition, the Chinese government's policies on exchange control, repatriation restrictions and taxation legislation are subject to change, and the value of the relevant investments may be adversely affected.

The stock markets in China are emerging markets exposed to rapid growth and changes this may lead to high volatility, lower level of regulation, and difficulties in settlement. Moreover Chinese accounting standards and practices may deviate significantly from international

accounting standards.

Risks related to ADR/GDR

ADRs (American Depositary Receipts) are a form of equity securities that were created specifically to offer investors access to individual non-US Companies. An ADR is issued by an American bank or broker. It represents one or more shares of foreign-company stock held by that bank in the home stock market of the foreign company.

GDR's (Global Depositary Receipt) are similar to ADR's, the only difference is that ADR's are only issued by U.S banks or brokers and traded on a U.S Stock exchange, while GDR's are issued in a number of countries and offered to investors in 2 or more markets.

The main specific risks related to investment in ADR's and GDR's are:

Currency or exchange rate risk: the risk that the currency in the issuing company's country will drop relative to the US dollar.

Inflation risk: Inflation risk shall be considered in extension of the exchange rate risk. The currency in a country with a high inflation could be less valuable.

Political risk: The countries are often characterized by unstable governments and institutions that might create sudden crises effecting a share, rights or ADR/GDR.

Risks related to Investments in Underlying Funds

The portfolio manager may not always be provided with detailed information regarding all of the investments made by underlying funds because certain of this information may be considered proprietary information by the managers of those underlying funds. This potential lack of access to information may make it more difficult for the portfolio manager to select, allocate among and evaluate individual fund managers.

Despite the due diligence procedures which will be used to select and monitor the individual underlying funds in which the assets of the Sub-Funds will be invested, there can be no assurance that past performance information in relation thereto will be indicative of how such investments will perform (either in terms of profitability or correlation) in the future.

Although the portfolio manager will seek to monitor the investments and trading activities of the underlying funds in which a Sub-Fund has invested, investment decisions will normally be made independently at the level of such underlying funds and it is possible that some managers will take positions in the same security or in issues of the same industry or country at the same time. Consequently, the possibility also exists that one underlying fund may purchase an instrument at about the same time as another underlying fund decides to sell it. There can be no guarantee that the selection of the managers will actually result in a diversification of investment styles and that the positions taken by the underlying funds will always be consistent.

Potential investors must be aware that underlying funds will be subject to management fees and other expenses. As a result, investors may suffer management fees and expenses incurred both

at the level of the Fund and the underlying funds in which the Sub-Fund invests. There may also be a duplication of subscription and/or redemption fees.

Risks related to Investments in Convertible Securities

Convertible bonds are corporate bonds with an option that allows an investor to convert the bond into shares at a given price at specified times during the life of the convertible bond. This exposure to equity movements can lead to more volatility than could be expected from a comparable conventional corporate bond.

Investments in convertible bonds are subject to the same interest rate, credit and prepayment risks associated with comparable conventional corporate bonds. Price changes in fixed-interest securities are influenced significantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. The values of convertible securities also may be affected by changes in the credit rating, liquidity or financial condition of the issuer. A Sub-Fund may also be exposed to the credit and insolvency risks of the issuers of the securities.

Risks related to Investments in Contingent Convertible Bonds

A contingent convertible bond (“CoCos”) is a fixed-income instrument that is convertible into equity if a pre-specified trigger event occurs.

The investments in CoCos may also entail the following potential risks, therefore, investors should fully understand and consider the risks of CoCos as a complex product and correctly factor those risks into their valuation:

Trigger level risk: trigger levels differ and determine exposure to a conversion risk depending on the distance of the capital ratio to the trigger level. It might be difficult for the Investment Manager to anticipate the triggering events that would require the debt to convert into equity.

Coupon cancellation: for some CoCos, coupon payments are entirely discretionary and may be cancelled by the issuer at any point, for any reason and for any length of time.

Write-down Risk: While all CoCos (AT1 and T2) are subject to conversion or write down when the issuing bank reaches the trigger level, for AT1s there is an additional source of risk for the investor in the form of coupon cancellation in a going concern situation. Coupon payments on AT1 instruments are entirely discretionary and may be cancelled by the issuer at any point, for any reason, and for any length of time. The cancellation of coupon payments on AT1 CoCos does not amount to an event of default. Cancelled payments do not accumulate and are instead written off. This significantly increases uncertainty in the valuation of AT1 instruments and may lead to mispricing of risk. Perhaps most challenging to investors, given the required absence of dividend stoppers/pushers, the AT1 holders may see their coupons cancelled while the issuer continues to pay dividends on its common equity and variable compensation to its workforce.

Capital structure inversion risk: contrary to classical capital hierarchy, CoCos investors may suffer a loss of capital when equity holders do not.

In certain scenarios, holders of CoCos will suffer losses ahead of equity holders, e.g., when a high trigger principal write-down CoCos is activated. This cuts against the normal order of capital

structure hierarchy where equity holders are expected to suffer the first loss. This is less likely with a low trigger CoCos when equity holders will already have suffered loss. Moreover, high trigger Tier 2 CoCos may suffer losses not at the point of gone concern but conceivably in advance of lower trigger AT1s and equity.

Call extension risk: some CoCos are issued as perpetual instruments, callable at pre-determined levels only with the approval of the competent authority. It cannot be assumed that the perpetual CoCos will be called on call date. AT1 CoCos are a form of permanent capital. The investor may not receive return of principal if expected on call date or indeed at any date.

Unknown risk: the structure of CoCos is innovative yet untested.

Higher yields: investors have been drawn to the instruments as a result of the CoCos often attractive yield which may be viewed as a complexity premium.

Industry concentration risk: investment in CoCos may lead to an increased industry concentration risk and thus counterparty risk as such securities are issued by a limited number of banks.

Valuation risk: the value of CoCos may need to be reduced due to a higher risk of overvaluation of such asset class on the relevant eligible markets. Therefore, a Fund may lose its entire investment or may be required to accept cash or securities with a value less than its original investment.

Conversion risk: it might be difficult for the Investment Manager to assess how the securities will behave upon conversion. A forced sale may itself lead to liquidity issue for these Shares.

Liquidity risk: in certain circumstances finding a ready buyer for CoCos may be difficult and the seller may have to accept a significant discount to the expected value of the CoCos in order to sell it.

Investment in distressed and defaulted securities

Investment in distressed securities (i.e. bonds which, at time of investment, are rated below speculative grade (CCC) by one or more of the main agencies (Moody's, Standard & Poor, Fitch) may cause additional risks for a Sub-Fund. Such securities are regarded as predominantly speculative with respect to the issuer's capacity to pay interest and principal or maintain other terms of the offer documents over any long period of time. They are generally unsecured and may be subordinated to other outstanding securities and creditors of the issuer. Whilst such issues are likely to have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposure to adverse economic conditions. Therefore, a Sub-Fund may lose its entire investment, may be required to accept cash or securities with a value less than its original investment and/or may be required to accept payment over an extended period of time. Recovery of interest and principal may involve additional cost for the Sub-Fund. Under such circumstances, the returns generated from the Sub-Fund's investments may not compensate the shareholders adequately for the risks assumed.

Investment in defaulted securities can expose the fund to the risk of loss through the inability of issuers to repay interest or principal. The value of a Sub-Fund may be adversely affected if any

of the institutions with whom the assets of the Sub-Fund are invested or deposited suffers insolvency or other financial difficulties.

Risks related to Investments in Commodities (including commodities indices)

Commodities, to which some of the Sub-Funds may be exposed, are assets that have tangible properties, such as oil, metals, and agricultural products. An exposure to commodities may not be suitable for all investors. Commodities and commodity-linked securities and derivatives may be subject to heightened risks and may be affected by overall market movements, changes in interest rates, and other factors such as weather, disease, embargoes, and international economic, regulatory and political developments, as well as the trading activity of speculators and arbitrageurs in the underlying. The commodity markets (including the markets for commodity-linked securities and derivatives) may be subject to a degree of volatility that may prove higher than in equity or bond markets due to their sensitivity to the development of commodity prices and their substantial exposure to emerging markets.

Risks related to Investments in Real Estate

The Sub-Funds may invest in real estate securities from time to time. These investments will be subject to the risks inherent in the ownership and operation of real estate and real estate related businesses and assets. These risks include, but are not limited to, the burdens of ownership of real estate property, general and local economic conditions, the supply and demand for properties, energy and supply shortages, fluctuations in the average occupancy and room rates for hotel properties, the financial resources of tenants, changes in building, environmental and other laws and/or regulations, changes in real estate property tax rates, changes in interest rates and the availability of mortgage funds which may render the sale or refinancing of properties difficult or impracticable, negative developments in the economy that depress travel activity, environmental liabilities, contingent liabilities on disposition of assets, uninsured or uninsurable casualties, acts of God, terrorist attacks and war and other factors which are beyond the control of the Fund. There is no assurance that there will be a ready market for resale of investments because investments will generally not be liquid. Illiquidity may result from the absence of an established market for the investments, as well as legal or contractual restrictions on their resale by the relevant Sub-Funds.

Risks related to Investments in mortgage related and other asset backed securities

The Sub-Funds may invest in asset backed securities ("ABS") including mortgage backed securities ("MBS") which market value will fluctuate with, among other things, the financial condition of the obligors or issuers of the portfolio and the underlying assets, general economic conditions, the condition of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates.

To the extent that they are not guaranteed, each type of ABS entails specific credit risks depending on the type of assets involved and the legal structure used.

ABS are securities that entitle the holders thereof to receive payments that depend primarily on cash flow from a specified pool of financial assets, either fixed or revolving, that by their terms convert cash within a finite time period, together with rights or other assets designed to assure the servicing or timely distribution of proceeds to holders of ABS.

The market value of a portfolio of ABS generally will fluctuate with, among other things, the

financial condition of the obligors or issuers of the portfolio and the underlying assets, general economic conditions, the condition of certain financial markets, political events, developments or trends in any particular industry and changes in prevailing interest rates.

ABS are often subject to extension and prepayment risks which may have substantial impact on the timing of their cashflows. The average life of each individual security may be affected by a large number of factors such as structural features (including the existence and frequency of exercise of any optional redemption, mandatory prepayment or sinking fund features), the prevailing level of interest rates, the actual default rate of the underlying assets, the timing of recoveries and the level of rotation in the underlying assets. As a result, no assurance can be made as to the exact timing of cashflows from the portfolio of securities. This uncertainty may affect the returns of the Sub-Funds.

In addition, to the extent that they are not guaranteed, each type of ABS entails specific credit risks depending on the type of assets involved and the legal structure used.

It is expected that some of the securities in the Sub-Funds will consist of ABS that are subordinate in right of payment and rank junior to other securities that are secured by or represent an ownership interest in the same pool of assets. Such subordinated ABS have a higher risk of loss than more senior classes of such securities.

5. The Fund's risk management

The Management Company will employ a risk-management process which will enable it to monitor and measure at any time the risk of the positions of the Sub-Funds and their contribution to the overall risk profile of the Sub-Funds.

The method retained by the Management Company in order to determine the global risk exposure of each Sub-Fund is set out for each Sub-Fund in Part B of the Prospectus.

B. Eligible Financial Assets

The various Sub-Funds must invest exclusively in:

Transferable securities and money market instruments

- a) transferable securities and money market instruments admitted to or dealt in on a regulated market as recognised by its home Member State and registered on the list of regulated markets published in the Official Journal of the European Union ("EU") or on its official website ("Regulated Market");
- b) transferable securities and money market instruments dealt in on another market in an EU Member State, which is regulated, operates regularly and is recognised and open to the public;
- c) transferable securities and money market instruments admitted to official listing on a stock exchange in a non-EU Member State or dealt in on another Regulated Market in a non-EU Member State;
- d) recently issued transferable securities and money market instruments, provided that (i) the issue terms and conditions include an undertaking that application will be made for

admission to official listing on a stock exchange or on another Regulated Market and that (ii) such admission is secured within one year of issue at the latest;

- e) money market instruments other than those dealt in on a Regulated Market, provided that the issuer or the issuer of these instruments is itself subject to regulations intended to protect investors and savings and that these instruments are:
- issued or guaranteed by a central, regional or local authority, by a central bank of an EU Member State, by the European Central Bank, by the EU or by the European Investment Bank, by a third State or, in the case of a Federal State, by one of the members composing the federation, or by an international public organisation to which one or more EU Member States belong; or
 - issued by a company any securities of which are dealt in on the Regulated Markets referred to under points a), b) or c) above; or
 - issued or guaranteed by an establishment subject to prudential supervision in accordance with the criteria defined by Community law or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by Community law; or
 - issued by other entities belonging to the categories approved by the CSSF provided that the investments in these instruments are subject to investor protection rules which are equivalent to those set out in the first, second or third indents, and that the issuer is a company which has capital and reserves of at least ten million euros (EUR 10,000,000.-) and which draws up and publishes its annual accounts in accordance with Directive 78/660/EEC, is an entity which, within a group of companies including one or several listed companies, is dedicated to financing the group or is an entity which is dedicated to financing securitisation vehicles benefiting from a bank credit line.

Moreover, any Sub-Fund may invest its net assets up to 10% maximum in transferable securities and money market instruments other than those indicated under a) to e) above.

Units of undertakings for collective investment

- f) units of undertakings for collective investment in transferable securities ("UCITS") authorised according to the Directive 2009/65/EC and/or other undertakings for collective investment ("UCIs") within the meaning of article 1(2), first and second indents of the Directive 2009/65/EC, whether or not established in an EU Member State, provided that:
- such other UCIs are authorised in accordance with legislation stipulating that these undertakings are subject to a supervision that the CSSF considers as equivalent to that provided for by Community law and that there are sufficient guarantees of cooperation between the authorities;
 - the level of protection guaranteed to unitholders of such other UCIs is equivalent to that provided for UCITS unitholders and, in particular, that the rules relating to the segregation of assets, borrowing, loans and uncovered sales of transferable

securities and money market instruments are equivalent to the requirements of the Directive 2009/65/EC;

- the activities of such other UCIs are reported in half-yearly and annual reports, which enable investors to assess their assets and liabilities, as well as the income and transactions for the period under review;
- the proportion of assets of the UCITS or these other UCIs, which it is planned to acquire which, in accordance with their instruments of incorporation, can be invested overall in units of other UCITS or other UCIs does not exceed 10%.

Deposits with credit institutions

- g) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than twelve months, provided that the credit institution has its registered office in an EU Member State or, if the registered office of the credit institution is situated in a non-EU Member State, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down by Community law.

Financial derivative instruments

- h) financial derivative instruments, including equivalent cash-settled instruments, dealt in on a Regulated Market of the type referred to under points a), b) and c) above, and/or financial derivative instruments dealt in over-the-counter ("OTC derivatives"), provided that:
 - the underlying consists of instruments described under points a) to g) above, financial indices, interest rates, foreign exchange rates or currencies, in which the Fund may invest according to the investment objectives and policies applicable to the relevant Sub-Fund;
 - the counterparties to OTC derivatives transactions are institutions subject to prudential supervision and belonging to the categories approved by the CSSF; and
 - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Fund's initiative.

The Fund may hold liquidities on an ancillary basis.

C. Investment Restrictions

Except to the extent that more restrictive rules are provided for in connection with a specific Sub-Fund in Part B of the Prospectus, the investment policy of the Sub-Funds shall comply with the rules and restrictions laid down hereafter.

Transferable securities and money market instruments

1. The Fund shall not invest its net assets in transferable securities and money market instruments of the same issuer in a proportion which exceeds the limits set out below, it

being understood that (i) these limits are to be respected within each Sub-Fund and that (ii) companies that are grouped together for account consolidation purposes are to be considered as a single entity for the purpose of calculating the limits described under points a) to e) below.

- a) A Sub-Fund may not invest more than 10% of its net assets in transferable securities or money market instruments issued by the same entity.

In addition, the total value of the transferable securities and money market instruments held by the Sub-Fund in issuers in which it invests more than 5% of its net assets shall not exceed 40% of the value of its net assets. This limit does not apply to deposits and OTC derivatives transactions made with financial institutions subject to prudential supervision.

- b) A Sub-Fund may invest cumulatively up to 20% of its net assets in transferable securities and money market instruments within the same group.
- c) The 10% limit referred to under point a) above may be increased to a maximum of 35% when the transferable securities or money market instruments are issued or guaranteed by an EU Member State, by its public local authorities, by a non-EU Member State or by public international bodies of which one or more EU Member States belong.

- d)

The 10% limit referred to under point a) above is increased up to 25% in respect of covered bonds as defined in Article 3(1) of Directive (EU) 2019/2162 of the European Parliament and of the Council of 27 November 2019 on the issue of covered bonds and covered bond public supervision and amending Directives 2009/65/EC and 2014/59/EU (the "Directive (EU) 2019/2162"), and for qualifying debt securities issued before 8 July 2022 by a credit institution which has its registered office in a Member State and which, under applicable law, is submitted to specific public supervision in order to protect the holders of such qualifying debt securities. For the purposes hereof, "qualifying debt securities" are securities the proceeds of which are invested in accordance with applicable law in assets providing a return which will cover the debt service through to the maturity date of the securities and which will be applied on a priority basis to the payment of principal and interest in the event of a default by the issuer. To the extent that a relevant Sub-Fund invests more than 5% of its assets in qualifying debt securities issued by such an issuer, the total value of such investments may not exceed 80% of the assets of such Sub-Fund.

- e) The transferable securities and money market instruments referred to under points c) and d) above shall not be taken into consideration for the application of the 40% limit stipulated under point a) above.
- f) **By way of derogation, each Sub-Fund is authorised to invest, according to the principle of risk-spreading, up to 100% of its net assets in different transferable securities and money market instruments issued or guaranteed by an EU Member State, by its local authorities, any other member of the**

OECD or by Singapore, or any member state of the G20 or by public international bodies of which one or more EU Member States are members.

If a Sub-Fund avails itself of this last possibility, it must then hold securities belonging to at least six different issues and the securities belonging to the same issue may not account for more than 30% of its total assets.

- g) Without prejudice to the limits established under point 8. below, the 10% limit referred to under point a) above is increased to a maximum of 20% for investments in stocks and/or debt securities issued by the same entity, when the Sub-Fund's investment policy is to replicate the composition of a specific stock or debt security index that is recognised by the CSSF, on the following basis:
- the composition of the index is sufficiently diversified,
 - the index represents an adequate benchmark for the market to which it refers,
 - it is published in an appropriate manner.

The 20% limit is increased to 35% when such is justified by exceptional market conditions, in particular in Regulated Markets where certain transferable securities or certain money market instruments are highly dominant. Investment up to this limit is authorised for only one issuer.

Deposits with credit institutions

2. The Fund may not invest more than 20% of the net assets of each Sub-Fund in deposits made with the same entity. Companies that are grouped together for account consolidation purposes are to be considered as a single entity for the purpose of calculating this limit.

Financial derivative instruments

3. a) The counterparty risk exposure in an OTC derivative transaction may not exceed 10% of the net assets of the Sub-Fund if the counterparty is one of the credit institutions referred to in Section B point g) above, or 5% of its net assets in all other cases.
- b) Investments in financial derivative instruments are authorised provided that, overall, the risks to which the underlying assets are exposed do not exceed the investment limits laid down under points 1. a) to e), 2., 3. a) above and 6. and 7. below. When the Fund invests in financial derivative instruments based on an index, such investments are not necessarily combined with the limits set out under points 1. a) to e), 2., 3. a) above and 6. and 7. below.
- c) When a transferable security or a money market instrument includes a financial derivative instrument, the latter must be taken into consideration for the application of the provisions set out under points 3. d) and 7. below, as well as for the assessment of the risks related to transactions in financial derivative instruments, so that the overall risk related to financial derivative instruments does not exceed the total net value of assets.
- d) Each Sub-Fund shall ensure that the overall risk related to financial derivative instruments does not exceed the total net value of its portfolio. The exposure is calculated by taking into account the current value of the underlying assets, the

counterparty risk, foreseeable market movements, and the time available to liquidate the positions.

Units of undertakings for collective investment

4. a) The Fund may not invest more than 20% of the net assets in each Sub-Fund in units of a single UCITS or other UCI, such as defined in Section B point f) above.
- b) Investments in units of UCIs other than UCITS may not exceed in total 30% of the Sub-Fund's net assets.
- c) When a Sub-Fund invests in the units of other UCITS and/or other UCIs which are managed, directly or by delegation, by the same management company or by any other company with which the management company is linked by common management or control, or by a substantial direct or indirect holding, that management company or other company may not charge subscription or redemption fees on account of the Sub-Fund's investment in the units of such other UCITS and/or other UCIs.

To the extent that this UCITS or UCI is a legal entity with multiple compartments where the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured, each compartment is to be considered as a separate issuer for the application of the above risk-spreading rules.

When a Sub-Fund has acquired units of UCITS and/or other UCIs, the assets of these latter do not have to be combined for the purposes of the calculation of the investment limits applicable to the Sub-Fund.

Shares of Sub-Funds of the Fund

5. Each Sub-Fund may subscribe, acquire and/or hold Shares issued or to be issued by one or more Sub-Funds of the Fund under the conditions however that:
 - The target Sub-Fund does not, in turn, invest in the Sub-Fund invested in this target Sub-Fund; and
 - No more than 10% of the net assets of the target Sub-Funds may be invested in units of other UCITS or other UCIs; and
 - Voting rights attached to the relevant Shares are suspended for as long as they are held by the relevant Sub-Fund; and
 - In any event, for as long as these Shares are held by the Fund, their value will not be taken into consideration for the calculation of the net assets of the Fund for the purpose of verifying the minimum capital imposed by the 2010 Law; and
 - There is no duplication of management/subscription or redemption fees between those at the level of the Sub-Fund having invested in the target Sub-Fund, and this target Sub-Fund.

Combined limits

6. Notwithstanding the individual limits set under points 1. a), 2. and 3. a) above, a Sub-Fund shall not combine:
- investments in transferable securities or money market instruments issued by the same entity,
 - deposits made with the same entity, or
 - risks resulting from OTC derivatives transactions undertaken with that single entity,
- that exceed 20% of its net assets.
7. The limits stipulated under points 1. a), 1. c), 1. d), 2., 3. a) and 6. shall not be combined and, accordingly, investments in the same issuer made in accordance with points 1. a), 1. c), 1. d), 2., 3. a) and 6. may not, in any event, exceed in total 35% of the net assets of the relevant Sub-Fund.

Limits on control

8. a) The Fund may not acquire any shares carrying voting rights which would enable it to exercise a significant influence over the management of an issuer.
- b) The Fund shall not acquire more than 10% of the non-voting shares of any single issuer.
- c) The Fund shall not acquire more than 10% of the debt securities of any single issuer.
- d) The Fund shall not acquire more than 10% of the money market instruments of any single issuer.
- e) The Fund shall not acquire more than 25% of the units of any single UCITS or other UCI.

It is accepted that the limits stipulated under points 8. c) to e) above may be disregarded at the time of acquisition if, at that time, the gross amount of the debt securities or money market instruments, or the net amount of the instruments in issue, cannot be calculated.

The limits stipulated under points 8. a) to e) above do not apply in the case of:

- transferable securities and money market instruments issued or guaranteed by an EU Member State or by its local authorities;
- transferable securities and money market instruments issued or guaranteed by a non-EU Member State;
- transferable securities and money market instruments issued by public international bodies of which one or more EU Member States are members;
- shares held in the capital of a company incorporated in a non-EU Member State, on condition that (i) the company in question invests its assets mainly in the securities of issuing bodies having their registered office in that State where, (ii) under the

legislation of that State, such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State, and (iii) in its investment policy the company from the non-EU Member State complies with the rules on risk diversification, counterparties and control limits laid down in points 1. a), 1. c), 1. d), 2., 3. a), 4. a) and b), 6., 7. and 8. a) to e) above;

- shares held in the capital of subsidiary companies carrying on the business of management, advice or marketing exclusively on the Fund's behalf in the country where the subsidiary is established as regards to the redemption of units at the request of shareholders.

Borrowing

9. Each Sub-Fund is authorised to borrow up to 10% of its net assets provided that such borrowing is on a temporary basis. Each Sub-Fund may also acquire foreign currency by means of back-to-back loans.

Commitments under options contracts, purchases and sales of forward contracts are not considered as borrowing for the purpose of calculating this investment limit.

Finally, the Fund shall ensure that the investments of each Sub-Fund respect the following rules:

10. The Fund may not grant loans to or act as a guarantor for third parties. This restriction shall not prevent it from acquiring transferable securities, money market instruments or other financial instruments which are not fully paid.
11. The Fund may not carry out short sales on transferable securities, money market instruments, or other financial instruments as mentioned in Section B above.
12. The Fund may not acquire movable and immovable property unless such is essential for the direct pursuit of its activity.
13. The Fund may not acquire commodities, precious metals or even certificates representing them.
14. The Fund may not use its assets to guarantee securities.
15. The Fund may not issue warrants or other instruments entitling the holder to acquire Shares in the Fund.

Notwithstanding all the aforementioned provisions:

16. It is accepted that the limits stipulated previously may not be respected when exercising subscription rights in respect of transferable securities or money market instruments, which are part of the assets of the Sub-Fund concerned.
17. When the maximum percentages above are exceeded for reasons beyond the Fund's control or as a result of the exercise of subscription rights, the Fund must give priority

when making sales to regularising the situation taking into account the interests of its shareholders.

While ensuring observance of the principle of risk spreading, each Sub-Fund may derogate to the limits set forth above for a period of six months following the date of its authorisation.

The Board of Directors has the right to determine additional investment restrictions to the extent that those restrictions are necessary to comply with the laws and regulations of countries where Shares of the Fund are offered or sold.

D. Techniques and Instruments relating to transferable securities and money market instruments

As at the date of the Prospectus, the Sub-Funds are not investing in total return swaps and do not conclude securities' lending transactions neither repurchase agreements nor reverse repurchase transactions within the meaning of Regulation (EU/2015/2365) on transparency of securities financing transactions and of reuse (the "SFT Regulation").

Should a Sub-Fund intend to use them, the Prospectus will be updated in accordance with the SFT Regulation.

6. Collateral management

When calculation the counterparty risk limits laid down by Article 43 of the 2010 Law, the risk exposure arising from OTC financial derivative transactions and Efficient Portfolio Management techniques shall be combined.

The collateral used to reduce the counterparty risk exposure, when entering into OTC financial derivative transactions and Efficient Portfolio Management techniques, should comply with the following criteria:

a) liquidity – any collateral received other than cash shall be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received shall also comply with the provisions of Article 48 of the 2010 Law;

b) valuation – collateral received shall be valued on at least a daily basis and assets that exhibit high price volatility shall not be accepted as collateral unless suitably conservative haircuts are in place;

c) issuer credit quality – collateral received shall be of high quality;

d) correlation – the collateral received by the Fund shall be issued by an entity that is independent from the counterpart and is expected not to display a high correlation with the performance of the counterpart;

e) collateral diversification (asset concentration) – collateral shall be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Fund receives from a counterpart of

efficient portfolio management and OTC financial derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its net asset value. When the Fund is exposed to different counterparties, the different baskets of collateral shall be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation the Fund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. Such a Fund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Fund' net asset value;

f) risks linked to the management of collateral, such as operational and legal risks, shall be identified, managed and mitigated by the risk management process;

g) where there is a title transfer, the collateral received shall be held by the depositary of the Fund. For other types of collateral arrangement, the collateral can be held by a third party depositary which is subject to prudential supervision, and which is unrelated to the provider of the collateral;

h) collateral received shall be capable of being fully enforced by the Fund at any time without reference to or approval from the counterparty;

i) non-cash collateral received shall not be sold, re-invested or pledged;

j) cash collateral received shall only be:

- placed on deposit with entities prescribed in Article 41(1)(f) of the 2010 Law;
- invested in high-quality government bonds;
- invested in short-term money market funds as defined in the CESR/10-049 Guidelines

on a common definition of European money market funds.

Re-invested cash collateral shall be diversified in accordance with the diversification requirements applicable to non-cash collateral.

Subject to the above criteria, the eligible collateral includes:

(i) cash denominated in the currency of the Fund (or relevant Sub-Fund) and money market instruments with an external credit rating AA- or above of the issuer;

(ii) marketable securities representing claims on or claims guaranteed by central banks of eligible jurisdictions, non-central government public sector entities, the Bank for International Settlements, the International Monetary Fund, the European Commission, given that they are traded in large, deep and active markets characterized by a low level of concentration;

(iii) marketable securities representing claims on or claims guaranteed by eligible jurisdictions, their central banks, non-central government public sector entities or multilateral development banks, with a credit rating of A- or above;

(iv) shares or units issued by money market UCIs complying with the CESR/10-049 Guidelines on a common definition of European money market funds, offering a daily liquidity, calculating a daily net asset value and being assigned a rating of AAA or its equivalent;

(v) shares or units issued by UCITS offering a daily liquidity and investing mainly in bonds or shares fulfilling the two requirements below;

(vi) debt instruments with an external rating at least equivalent to "investment grade";

(vii) shares and convertible bonds dealt on a regulated market, on the condition that these shares are included in a main index.

For the valuation of the collateral the following haircuts will be applicable.

Collateral Haircut

Collateral Type	Applied Haircut		
1. Cash in base currency of the fund	0%		
2. Cash in non- base currencies	1% - 10%		
3. Money markets instruments with an external credit rating AA- or above ¹	0.5% - 2%		
4. Debt Instrument ²	Residual maturity		
	Less than 1 year	1-5 years	More than 5 years
Bonds issued or guaranteed by a EU member state with an external rating at least equivalent to AA-	0.25% -3%	2% - 5%	5% - 10%
Sovereign debt instruments with an external rating AA or above	0.25% -3%	2% - 5%	5% - 10%
Debt instruments with an external rating A or above	1%- 5%	6% - 12%	10% - 15%
5. Shares dealt on a regulated market and included in a main index (European and US index)	15% - 25%		

At any time, relative to market conditions, if deemed necessary for the best interest of the fund, the Management Company reserves the right to amend the above haircut level.

Cash as collateral may only be placed in:

- (i) high quality eligible sovereign debt and/or debt guaranteed by an eligible jurisdiction subject to a AAA-equivalent rating;
- (ii) any other government bonds generally considered risk-free in reference to AAA-equivalent rating;
- (iii) short term money market funds subject to a AAA-equivalent rating;
- (iv) plain vanilla corporate bonds or plain vanilla money market instruments with a short maturity (generally 3 months) from issuers in OECD member countries subject to AAA equivalent rating.

¹ If money market instruments are traded above the par value, a haircut will be applied to the face value of the MMI.

² If debt instrument are traded above par value, a haircut will be applied to the face value of the instruments.

The above provisions are in line with the ESMA 2014/937 Guidelines on ETFs and other UCITS issues. The Management Company shall at all times make sure to comply with any new requirement or amendments of the ESMA requirements upon their entering into force.

II. BOARD OF DIRECTORS

The Board of Directors has the broadest powers to act in any circumstances on behalf of the Fund, without prejudice of the powers expressly assigned by Luxembourg law to the shareholders' meeting.

The Board of Directors is responsible for the administration and management of the assets of the Fund. It may carry out all acts of management and administration on the Fund's behalf.

III. MANAGEMENT COMPANY

The Board of Directors has appointed, under its responsibility and its supervision, **Andbank Asset Management Luxembourg** as the management company of the Fund (the "Management Company").

Andbank Asset Management Luxembourg is a public limited company incorporated under the laws of Luxembourg, set up for an unlimited period in Luxembourg on 13 July 2009. It has its registered office at 4, rue Jean Monnet, L-2180 Luxembourg. Its fully paid-up capital is EUR 3,000,000.-.

Andbank Asset Management Luxembourg is governed by chapter 15 of the Law of 2010 and as such is responsible for the collective management of the Fund's portfolios.

In accordance with the laws and regulations currently in force, Andbank Asset Management Luxembourg is authorised to delegate all or part of its duties and powers to any person or company which it may consider appropriate (the "representative(s)"). Andbank Asset Management Luxembourg will remain entirely liable for the actions of such representative(s).

At the date of the Prospectus, the central administration (except for the domiciliary and corporate agency function) of the Fund is delegated.

The Management Company has established a remuneration policy for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profiles of the Management Company or the Fund, that are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles or the Fund's Articles.

The remuneration policy is in line with the business strategy, objectives, values and interests of the Management Company and the Fund and of its shareholders, and includes measures to avoid conflicts of interest.

The variable remuneration is granted on the basis of the results of the performance assessment process. It shall be based on relevant, pre-determined and measurable criteria linked to the Management Company's corporate values, business strategy goals, long-term interests of its shareholders and clients, and risk management.

The remuneration policy also ensures that fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

This remuneration policy takes into account the principle of proportionality, which allows procedures, mechanisms and organizational structure to be calibrated to the nature, scale and complexity of the Management Company business and to the nature and range of activities carried out in the course of its business.

Disclosure in the Annual Report:

Information relating to the remuneration policy shall be available in the Annual Report of the Management Company, as well as the Annual Report of the Fund.

The up-to-date remuneration policy of the Management company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available at www.andbank.lu and a paper copy will be made available free of charge upon request at the Management Company's registered office.

IV. THE SHARES

The Fund may issue Shares of different Classes or Categories reflecting the various Sub-Funds which the Board of Directors may decide to open. Within a Sub-Fund, Classes or Categories may be defined from time to time by the Board of Directors so as to correspond to (i) a specific distribution policy, such as entitling to distributions or not entitling to distributions, and/or (ii) a specific sales and redemption charge structure, and/or (iii) a specific management, performance or advisory fee structure, and/or (iv) a specific distribution fee structure, and/or (v) specific types of investors entitled to subscribe the relevant Classes/Categories, and/or (vi) a specific currency, and/or (vii) any other specific features applicable to one Class/Category. If Classes or Categories are defined within a Sub-Fund, such Classes or Categories will be described in the specific information relating to the relevant Sub-Fund contained in Part B of the Prospectus.

Shares in any Sub-Fund will be issued in a bearer form, in a dematerialised form or a registered form. The form of Shares authorised in a Sub-Fund/Class or Category will be specified in Part B of the Prospectus.

Registered Shares will be registered in the register of shareholders. Registered shareholders will only receive a written confirmation of registration in the register of shareholders. No registered share certificates will be issued to shareholders.

Dematerialised Shares are represented by an entry in the securities account in the name of their owner or holder with an authorised account holder or a provider of settlement services. Share certificate(s) may alternatively be issued for bearer Shares; the cost of the issue and delivery of bearer share certificates will be supported by the relevant investors.

If dematerialised Shares are issued, registered Shares may be converted into dematerialised Shares and dematerialised Shares may be converted into registered Shares at the request of the holder of such Shares. A conversion of registered Shares into dematerialised Shares will be effected by cancellation of the registered share certificate, if any, and by an entry in the securities account or by the issue of bearer share certificates in lieu thereof, and an entry shall be made into the register of shareholders to evidence such cancellation. A conversion of dematerialised Shares into registered Shares will be effected, if applicable, by issuance of a written confirmation or of a registered share certificate in lieu thereof, and an entry shall be made into the register of shareholders to evidence such issuance. The costs of any such conversion will be borne by the shareholder requesting it.

Fractions of Shares will be issued up to three decimal places. Such fractional Shares shall not be entitled to vote but shall be entitled to a participation in the net results and in the proceeds of liquidation or of any other distribution attributable to the Shares in the relevant Sub-Fund on a pro rata basis.

All Shares must be fully paid-up in cash or in kind; they are of no par value and carry no preferential or pre-emptive rights. Each Share to whatever Sub-Fund it belongs is entitled to one vote at any general meeting of shareholders, in compliance with Luxembourg law and the Articles.

The Fund draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Fund, notably the right to participate in the general meetings of shareholders if the investor is registered himself and in his own name in the register of shareholders of the Fund. In cases where an investor invests in the Fund through an intermediary investing in the Fund in his own name but on behalf of the investor, it may not always be possible for the investor to exercise certain shareholders rights directly against the Fund. Investors are advised to take advice on their rights.

If the Shares of a Sub-Fund are listed on the Luxembourg Stock Exchange, it will be specified in Part B of the Prospectus.

V. PROCEDURE FOR SUBSCRIPTION, CONVERSION AND REDEMPTION

A. Subscription for Shares

The Board of Directors is authorised to issue Shares of each Sub-Fund and of each Class/Category at any time and without limitation.

After the Initial Subscription Period of any Class/Category within a Sub-Fund, if any, or of any Sub-Fund (as defined in Part B of the Prospectus), the subscription price per Share in the relevant Class/Category or Sub-Fund (the "Subscription Price") is the total of the Net Asset Value

per Share and the sales charge, if any, as stated in Part B of the Prospectus. The Subscription Price is available for inspection at the registered office of the Fund.

Subscriptions in any Class/Category or in any Sub-Fund may be subject to a minimum investment amount and/or a minimum holding requirement as stated in Part B of the Prospectus, as the case may be.

Investors whose applications are accepted will be allotted Shares issued on the basis of the Net Asset Value per Share determined as of the Valuation Day (as defined in this Part A) following receipt of the subscription form provided that such application is received by the Registrar and Transfer Agent within the relevant time limit as stated in Part B of the Prospectus. Applications received by the Registrar and Transfer Agent after the relevant time limit will be dealt with on the following Valuation Day.

Investors may be required to complete a subscription form or any other documentation satisfactory to the Fund.

Payments for Shares will be made in the Reference Currency of the relevant Class, Category or Sub-Fund.

Payments for subscriptions must be made within the time limits set out for each Sub-Fund in Part B of the Prospectus. Shares will usually only be issued once the Depositary has confirmed actual receipt of the Subscription Price. If payment for a subscription request is received after the relevant time limit as stated in Part B of the Prospectus, the Board of Directors or its agent may process the request by (i) applying an increase which notably reflects interest owed at the usual market rates; or (ii) cancelling the Share allotment, as the case may be, accompanied by a request for compensation for any loss owing to failure to make payment before the stipulated time limit.

The Fund may agree to issue Shares as consideration for a contribution in kind of securities or other permitted assets, in compliance with the conditions set forth by Luxembourg law, in particular the obligation for the Auditors of the Fund to deliver a valuation report and provided that such assets comply with the investment policy and restrictions of the relevant Sub-Fund. Any costs incurred in connection with a contribution in kind of securities or other permitted assets shall be borne by the relevant shareholders.

Written confirmations of shareholding will be sent to shareholders. Bearer share certificates may be issued at the request of the relevant shareholders and at their charge.

No Shares in any Sub-Fund will be issued during any period when the calculation of the Net Asset Value per Share in such Sub-Fund is suspended by the Fund, pursuant to the powers reserved to it by Article 12 of the Articles. In the case of suspension of dealings in Shares, the application will be dealt with on the first Valuation Day following the end of such suspension period.

B. Money Laundering Prevention

In order to contribute to the fight against money laundering and terrorist financing, the Fund will at all times comply with any obligations imposed by any applicable laws, rules, regulations and

circulars with respect to the prevention of money laundering and terrorist financing obliging investors to prove their identity to the Fund.

Before accepting a subscription, the Fund may undertake any additional investigations in accordance with national and international rules in force concerning anti-money laundering and terrorist financing.

C. Conversion of Shares

Unless otherwise stated in Part B of the Prospectus, shareholders have the right, subject to the provisions hereinafter specified, to convert Shares from one Sub-Fund for Shares of another Sub-Fund and to convert Shares of a given Class/Category to Shares of the same Class/Category of another Sub-Fund (if applicable). The Board of Directors may refuse to accept a conversion application if it is detrimental to the interests of the Fund, the Sub-Funds and the Classes/Categories concerned or the relevant shareholders.

The rate at which Shares of a given Class/Category or Sub-Fund (the “original Sub-Fund or Class/Category”) shall be converted into Shares of another Class/Category or Sub-Fund (the “new Sub-Fund or Class/Category”) will be determined as precisely as possible and in accordance with the following formula:

$$A = \frac{B \times C \times E}{D}$$

- A being the number of Shares to be allocated in the new Sub-Fund or Class/Category;
- B being the number of Shares of the original Sub-Fund or Class/Category to be converted;
- C being the prevailing Net Asset Value of the original Sub-Fund or Class/Category on the Valuation Day in question;
- D being the prevailing Net Asset Value of the new Sub-Fund or Class/Category on the Valuation Day in question; and
- E being the exchange rate applicable at the time of the transaction between the Reference Currencies of the three Sub-Funds or Classes/Categories concerned.

Conversions of Shares in any Class/Category or Sub-Fund may be subject to a fee based on the respective Net Asset Value of the relevant Shares as stated in Part B of the Prospectus, as the case may be. However, this amount may be increased if the sales charge applied to the original Class/Category or Sub-Fund was less than the sales charge applied to the Class/Category or Sub-Fund in which the Shares will be converted. In such cases, the conversion fee may not exceed the amount of the difference between the sales charge applied to the Class/Category or Sub-Fund in which the Shares will be converted and the sales charge applied to the initial subscription. This amount will be payable to the sales agents.

Shares may be tendered for conversion on any Valuation Day.

All terms and notices regarding the redemption of Shares shall equally apply to the conversion of Shares.

No conversion of Shares will be effected until a duly completed request for conversion of Shares has been received by the Registrar and Transfer Agent.

Fractions of Shares will be issued on conversion up to three decimal places.

Written confirmations of shareholding will be sent to shareholders together with the balance resulting from such conversion, if any. Bearer share certificates may be issued at the request of the relevant shareholders and at their charge.

In converting Shares of a Class/Category or Sub-Fund for Shares of the same Class/Category of another Sub-Fund or of another Sub-Fund, a shareholder must meet the applicable minimum initial investment requirements imposed by the new Sub-Fund, if any.

If, as a result of any request for conversion, the investment held by any shareholder in a Class/Category or Sub-Fund would fall below the minimum amount, if any, indicated in Part B of the Prospectus under the specific information for each Sub-Fund, the Fund may treat such request as a request to convert the entire shareholding of such shareholder.

Conversion restrictions

No Shares shall be converted into a given Sub-Fund, Class or Category throughout the period when the calculation of the Net Asset Value of the Shares of the said Sub-Fund, Class or Category has been temporarily suspended by the Board of Directors pursuant to the powers conferred on it by Article 12 of the Articles.

In accordance with Article 9 of the Articles, in the case of important conversion applications representing more than 10% of the net assets of a given Sub-Fund, the Board of Directors reserves the right to decide that all or part, on a pro rata basis for each shareholder asking for the conversion of its Shares, of such requests for conversion will be deferred and to convert the Shares only at a price as determined once it has been able to sell the necessary assets as soon as possible in the interests of the shareholders of the Sub-Fund as a whole, and it has received the proceeds of such sales. In such cases, a single price shall be calculated for all the redemption, subscription and conversion applications presented at the same time for the Sub-Fund in question.

D. Redemption of Shares

Each shareholder may at any time request the Fund to redeem on any Valuation Day all or any of its Shares in any of the Classes/Categories or Sub-Funds.

Shareholders desiring to have all or any of their Shares redeemed should apply in writing to the Registrar and Transfer Agent.

Redemption requests should contain the following information (if applicable): the identity and address of the shareholder requesting the redemption, the number of Shares to be redeemed, the relevant Class/Category or Sub-Fund, the name in which such Shares are registered and details as to whom payment should be made.

Shareholders whose requests for redemption are accepted will have their Shares redeemed on any Valuation Day provided that the requests have been received by the Registrar and Transfer Agent within the relevant time limit as stated in Part B of the Prospectus. Requests received by

the Registrar and Transfer Agent after the relevant time limit will be dealt with on the following Valuation Day.

Shares will be redeemed at a price based on the Net Asset Value per Share in the relevant Class/Category or Sub-Fund determined on the first Valuation Day following receipt of the redemption request, potentially decreased by a redemption fee as stated in Part B of the Prospectus, as the case may be (the "Redemption Price").

The Redemption Price shall be paid within the time limits set out for each Sub-Fund in Part B of the Prospectus.

Payment will be made by transfer bank order to an account indicated by the shareholder, at such shareholder's expense and risk.

Payment of the Redemption Price will be made in the Reference Currency of the relevant Class/Category or Sub-Fund.

The Redemption Price may be higher or lower than the price paid at the time of subscription or purchase.

If as a result of any request for redemption, the investment held by any shareholder in a Class/Category or Sub-Fund would fall below the minimum amount indicated in Part B of the Prospectus, if any, the Fund may treat such request as a request to redeem the entire shareholding of such shareholder in such Class/Category or Sub-Fund.

All redeemed Shares by the Fund will be cancelled.

Redemption restrictions

No Shares shall be redeemed in a given Sub-Fund, Class or Category throughout the period when the calculation of the Net Asset Value of the Shares of the said Sub-Fund, Class or Category has been temporarily suspended by the Fund under the powers conferred on it by Article 12 of the Articles. In accordance with Article 8 of the Articles, in the case of important redemption requests representing more than 10% of the net assets of a given Sub-Fund, the Board of Directors reserves the right to decide that all or part, on a pro rata basis for each shareholder asking for the redemption of its Shares, of such requests for redemption will be deferred and to redeem the Shares only at a Redemption Price as determined once it has been able to sell the necessary assets as soon as possible in the interests of the shareholders of the Sub-Fund as a whole, and it has received the proceeds of such sales. In such cases, a single price shall be calculated for all the redemption, subscription and conversion applications presented at the same time for the Sub-Fund in question.

Under special circumstances including, but not limited to, default or delay in payments due to the relevant Sub-Fund from banks or other entities, the Fund may, in turn, delay all or part of the payment to shareholders requesting redemption of Shares in the Sub-Fund concerned. The right to obtain redemption is contingent upon the Sub-Fund having sufficient liquid assets to honour redemptions.

Compulsory redemption

Redemption of Shares may be carried out in the manner described in this Part A in Chapter XV "General Information" Section D. "Liquidation, Merger and Split of Sub-Funds, Classes or Categories".

The Articles contain at Article 10 provisions enabling the Fund to compulsorily redeem Shares held by US persons.

E. Protection against Late Trading and Market Timing practices

The Board of Directors does not authorise Market Timing activities as defined in CSSF circular 04/146, nor does it authorise active trading and excessive trading practices ("Active Trading"), defined as the rapid subscription, redemption and conversion of Shares from the same Sub-Fund, as applicable in large amounts, in order to make a short-term profit. Active Trading and Market Timing practices are harmful to other shareholders since they affect the Sub-Fund's performance and disrupt asset management.

The Board of Directors reserves the right to reject all subscription and conversion orders suspected to reflect Active Trading or Market Timing practices. The Board of Directors may take all necessary measures to protect the Fund's other shareholders when such practices are suspected.

The investors do not know the Net Asset Value per Share at the time of their request for subscription, redemption or conversion.

F. Suspension and rejection of subscriptions

The Board of Directors may suspend or interrupt, without prior notice, the issue of the Shares in one, several or all of the Sub-Funds, Classes or Categories at any time. It may do so particularly in the circumstances described under Chapter VI. "Determination of the Net Asset Value", Section B "Temporary Suspension of the Calculation". Moreover, it reserves the right, without having to give reasons for its decision, to:

- reject any subscription;
- redeem at any time Shares in the Fund that were unlawfully subscribed or are unlawfully held.

When, after a suspension of the issue of Shares of one or more Sub-Funds for any period of time, the Board of Directors decides to resume such issue, all pending subscriptions will be processed on the basis of the same Net Asset Value per Share determined after calculation of the Net Asset Value is resumed.

VI. DETERMINATION OF THE NET ASSET VALUE

A. Calculation and Publication

The Net Asset Value per Share of each Class/Category in respect of each Sub-Fund or of each Sub-Fund (the “NAV” or the “Net Asset Value”) is calculated in Luxembourg by the Administrative Agent. The Net Asset Value of each Class/Category in respect of each Sub-Fund or of each Sub-Fund shall be determined in the Reference Currency of that Class/Category or Sub-Fund as specified in Part B of the Prospectus.

The Net Asset Value is calculated on the day specified for each Sub-Fund in Part B of the Prospectus (“Valuation Day”) on the basis of the prices available on that Valuation Day, as published by the stock exchanges or Regulated Markets concerned and with reference to the value of assets owned on behalf of the relevant Sub-Fund, according to Article 11 of the Articles.

The Net Asset Value per Share shall be determined by dividing the net assets of the Fund attributable to such Class/Category in that Sub-Fund or to such Sub-Fund (being the value of the portion of assets less the portion of liabilities attributable to such Class/Category or to such Sub-Fund on any such Valuation Day), as determined in accordance with applicable generally accepted Luxembourg accounting principles, by the total number of Shares in the relevant Class/Category in a Sub-Fund or in the relevant Sub-Fund then outstanding.

If, since the time of determination of the Net Asset Value on the relevant Valuation Day, there has been a material change in the quotations in the markets on which a substantial portion of the investments attributable to the relevant Class/Category in respect of a Sub-Fund or to the relevant Sub-Fund are dealt in or quoted, the Fund may, in order to safeguard the interests of the shareholders and the Fund, cancel the first valuation and carry out a second valuation. All subscription, redemption and conversion requests shall be treated on the basis of this second valuation.

The Net Asset Value is determined on the basis of the value of the underlying investments of the relevant Sub-Fund, as follows:

- (a) The value of any cash on hand or on deposit, bills and demand notes payable and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- (b) The value of any security or other asset which is quoted or dealt in on a stock exchange will be based on its last available price in Luxembourg on the stock exchange which is normally the principal market for such security.
- (c) The value of any security or other asset which is dealt in on any other Regulated Market will be based on its last available price in Luxembourg.
- (d) In the event that any assets are not listed nor dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any

stock exchange or on any other Regulated Market as aforesaid, the price as determined pursuant to sub-paragraph (b) or (c) is not, in the opinion of the Board of Directors, representative of the fair market value of the relevant assets, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith.

- (e) Units of undertakings for collective investment will be valued at their last determined and available net asset value or, if such price is not, in the opinion of the Board of Directors, representative of the fair market value of such assets, then the price shall be determined by the Board of Directors on a fair and equitable basis.
- (f) The liquidating value of futures, spot, forward or options contracts not traded on stock exchanges nor on other Regulated Markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, spot, forward or options contracts traded on stock exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these contracts on stock exchanges and Regulated Markets on which the particular futures, spot, forward or options contracts are traded by the Fund; provided that if a futures, spot, forward or options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable. Swaps will be valued at their market value.
- (g) The value of money market instruments not traded on stock exchanges nor on other Regulated Markets and with a remaining maturity of less than 12 months and of more than 90 days is deemed to be the nominal value thereof, increased by any interest accrued thereon. Money market instruments with a remaining maturity of 90 days or less will be valued by the amortized cost method, which approximates market value.
- (h) Interest rate swaps will be valued at their market value established by reference to the applicable interest rates' curve.
- (i) All other securities and other assets will be valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

The net proceeds from the issue of Shares in the relevant Sub-Fund are invested in the specific portfolio of assets constituting such Sub-Fund.

The Board of Directors shall maintain for each Sub-Fund a separate portfolio of assets. As between shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Sub-Fund.

As regard relations among the shareholders themselves and between the shareholders and third parties, each Sub-Fund shall be considered as a separate entity and shall only be responsible for the liabilities which are attributable to such Sub-Fund.

The value of all assets and liabilities not expressed in the Reference Currency of a Class/Category or Sub-Fund will be converted into the Reference Currency of such Class/Category or Sub-Fund at the rate of exchange ruling in Luxembourg on the relevant Valuation Day. If such quotations are not available, the rate of exchange will be determined in good faith by or under procedures established by the Board of Directors.

The Board of Directors, in its discretion but in accordance with applicable generally accepted Luxembourg accounting principles, may permit some other methods of valuation to be used if it considers that such valuation better reflects the fair value of any assets of the Fund.

The Net Asset Value and the issue, redemption and conversion prices for the Shares in each Sub-Fund may be obtained during business hours at the registered office of the Fund, and will be published in such newspapers as determined for each Sub-Fund by the Board of Directors and specified in Part B of the Prospectus, as the case may be.

B. Temporary Suspension of the Calculation of the Net Asset Value and the issue, redemption and conversion of Shares

In each Sub-Fund, the Fund may temporarily suspend the calculation of the Net Asset Value and the issue, redemption and conversion of Shares:

- a) during any period when any of the principal stock exchanges or other markets on which a substantial portion of the investments of the Fund attributable to the relevant Sub-Fund from time to time are quoted or dealt in, is closed otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended; or
- b) during the existence of any state of affairs which constitutes an emergency in the opinion of the Board of Directors as a result of which disposal or valuation of assets owned by the Fund attributable to the relevant Sub-Fund would be impracticable; or
- c) during any breakdown in the means of communication or computation normally employed in determining the price or value of any of the investments of the relevant Sub-Fund or the current price or value on any stock exchange or other market in respect of the assets attributable to such Sub-Fund; or
- d) during any period when the Fund is unable to repatriate funds for the purpose of making payments on the redemption of Shares of such Sub-Fund or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of Shares cannot, in the opinion of the Board of Directors, be effected at normal rates of exchange; or
- e) when for any other reason beyond the control and responsibility of the Board of Directors the prices of any investments owned by the Fund attributable to such Sub-Fund cannot promptly or accurately be ascertained; or
- f) upon the notification or publication of a notice convening a general meeting of shareholders for the purpose of resolving the winding-up of the Fund; or

- g) during any period when the market of a currency in which a substantial portion of the assets of the Sub-Fund is denominated is closed otherwise than for ordinary holidays, or during which dealings therein are suspended or restricted; or
- h) during any period when political, economic, military, monetary or fiscal circumstances which are beyond the control and responsibility of the Fund prevent the Fund from disposing of the assets, or determining the Net Asset Value of the Sub-Fund in a normal and reasonable manner; or
- i) during any period when the calculation of the net asset value per unit of a substantial part of undertakings for collective investment in which the Sub-Fund is investing in, is suspended and this suspension has a material impact on the Net Asset Value in the Sub-Fund.

Any such suspension shall be notified by the Fund to all the shareholders, if appropriate, and may be notified to shareholders having made an application for subscription, redemption or conversion of Shares for which the calculation of the Net Asset Value has been suspended.

Such suspension as to any Sub-Fund shall have no effect on the calculation of the Net Asset Value, the issue, redemption and conversion of Shares of any other Sub-Fund not affected by the same circumstances.

Any application for subscription, redemption or conversion of Shares is irrevocable except in case of suspension of the calculation of the Net Asset Value in the relevant Sub-Fund, in which case shareholders may give notice that they wish to withdraw their application. If no such notice is received by the Fund, such application will be dealt with on the first Valuation Day following the end of the period of suspension.

C. Indemnification rights in case of Net Asset Value calculation errors, breaches of investment restrictions or other errors for investors subscribing through financial intermediaries

The investors' attention is drawn to the fact that the indemnification rights of any investors subscribing to Shares in the Fund through financial intermediaries, i.e., where investors are not registered themselves in their own name in the register of the Fund, may be affected in the context of compensation paid in case of errors or non-compliance at the level of the Fund because the payment of indemnifications may be influenced by the arrangements established with the intermediary. Consequently, investors are encouraged to consult the relevant intermediary through which they subscribed for Shares in the Fund to receive information on the arrangements made with the Fund regarding the indemnification process in the event of a Net Asset Value calculation error, a breach of investment restriction or another type of error.

VII. DISTRIBUTION POLICY

The distribution policy of each Sub-Fund will be described in the specific information contained in Part B of the Prospectus.

However the Board of Directors may at any time and at its own discretion decide to create within a Sub-Fund or within a Class two Categories, one Category entitling the holders thereof to

receive a distribution and another Category capitalizing its entire earnings. These Categories will be indicated in the specific information contained in Part B of the Prospectus.

A. Principle

The general meeting of shareholders shall decide, upon proposal of the Board of Directors and after closing the annual accounts, whether and to what extent distributions are to be paid out of investment income, realised gains and potentially net assets in the relevant Sub-Fund(s). The payment of distributions shall not result in the Net Asset Value of the Fund falling below the minimum capital amount prescribed by law.

The Board of Directors may, at its discretion, pay interim dividends.

B. Payment

Shareholders shall be paid by bank transfer in accordance with their instructions.

Payment will be made in the Reference Currency of the relevant Sub-Fund and/or Class or Category.

Entitlements to distributions and allocations not claimed within five years of the due date shall be forfeited and the corresponding assets returned to the relevant Sub-Fund(s). If the Sub-Fund in question has already been liquidated, the distributions and allocations will accrue to the remaining Sub-Funds of the Fund in proportion to their respective net assets.

VIII. CHARGES AND EXPENSES

A. General

The Fund pays out of its assets all expenses payable by the Fund which shall include but not be limited to formation expenses, fees payable to the relevant supervisory authorities, fees payable to its Management Company, Investment Managers and Advisors, including performance fees, if any, fees and expenses payable to its Depositary and correspondents, Domiciliary and Corporate Agent, Administrative Agent, Registrar and Transfer Agent, Listing Agent, any Paying Agent, any permanent representatives in places of registration, as well as any other agent employed by the Fund, the remuneration (if any) of the Directors and officers of the Fund and their reasonable out-of-pocket expenses, insurance coverage, and reasonable travelling costs in connection with Board meetings, fees and expenses for legal and auditing services, any expenses incurred in connection with obtaining legal, tax and accounting advice and the advice of other experts and consultants, any expenses incurred in connection with legal proceedings involving the Fund, any fees and expenses involved in registering and maintaining the registration of the Fund with any governmental agencies or stock exchanges in the Grand Duchy of Luxembourg and in any other country, reporting and publishing expenses, including the costs of preparing, printing, translating, advertising and distributing prospectuses, explanatory memoranda, periodical reports or registration statements, share certificates, and the costs of any reports to shareholders, all taxes, duties, governmental and similar charges, expenses in relation of the marketing, promotion and development of the Fund i.e. "marketing costs", setting up costs, all other operating expenses, including the cost of buying and selling assets, interest,

bank and brokerage charges, postage and telephone charges and winding-up costs. The Fund may accrue administrative and other expenses of a regular or recurring nature based on an estimated amount rateable for yearly or other periods.

In the case where any liability of the Fund cannot be considered as being attributable to a particular Sub-Fund, such liability shall be allocated to all the Sub-Funds pro rata to their Net Asset Value or in such other manner as determined by the Board of Directors acting in good faith.

B. Formation Expenses

Expenses incurred in connection with the incorporation of the Fund including those incurred in the preparation and publication of the first Prospectus and constitutive documents, as well as the taxes, duties and any other incorporation and publication expenses, are estimated at EUR 20,000.- and may be amortized over a maximum period of five years.

Expenses incurred in connection with the creation of any additional Sub-Fund shall be borne by the relevant Sub-Fund and will be written off over a period of five years. Hence, the additional Sub-Funds shall not bear a pro rata of the costs and expenses incurred in connection with the creation of the Fund and the initial issue of Shares, which have not already been written off at the time of the creation of the new Sub-Fund(s).

C. Fees to be paid to the service providers

1. Fees of the Management Company

The Management Company is entitled to receive from each Sub-Fund a management fee as determined in Part B of the Prospectus for each Sub-Fund.

Quintet Private Bank (Europe) S.A., as provider of brokerage services to the Fund, may retrocede part of the fees it receives from the Fund to the Management Company in accordance with article 32 of CSSF Regulation 10-4 of 20 December 2010. Details of any such retrocessions will be made available at the registered office of the Fund.

2. Fees of the Investment Advisors

The Investment Advisors are entitled to receive from the Management Company at the charge of the relevant Sub-Fund an investment advisory fee as determined in Part B of the Prospectus for each Sub-Fund.

3. Fees of the Depositary

The Depositary will receive, out of the assets of each Sub-Fund, a remuneration calculated in accordance with customary banking practice in Luxembourg and expressed as a percentage per annum of the average monthly net assets thereof during the month under review and payable monthly in arrears.

The Depositary is currently paid at the following rates:

- 0.065% per annum on the first EUR 75 million of average net assets;
- 0.050% per annum on the average net assets between EUR 75 million and EUR 250 million;
- 0.035% per annum on the average net assets over EUR 250 million.

With an annual minimum of EUR 12.500 per sub-fund, unless the net assets of the whole structure are above EUR 50 million..

4. Fees of the Domiciliary and Corporate Agent

The Domiciliary and Corporate Agent will receive from the Fund a remuneration in accordance with customary banking practice in Luxembourg and expressed as a flat fee payable yearly in advance.

The fee amounts to EUR 2,900.- per annum for the Sub-Funds, INTERNATIONAL DIVERSIFIED PORTFOLIO; LA PLETA and MIXED ALLOCATION. The fee amounts to EUR 3,900 per annum for the Sub-Fund ALINEA GLOBAL.

5. Fees of the Administrative Agent and Registrar and Transfer Agent

The Administrative Agent and Registrar and Transfer Agent will receive from the Management Company at the charge of the Fund, out of the assets of each Sub-Fund, a remuneration calculated in accordance with customary banking practice in Luxembourg and expressed as a flat fee and a transaction fee payable monthly in arrears.

- a. A fixed fee of EUR 25,000.00.- per annum and per Sub-Fund; and
- b. With variable fees of :

From EUR 0 million to EUR 50 million: 0.016%

From EUR 50 million to EUR 100 million: 0.014%

From EUR 100 million to EUR 250 million: 0.01%

Over EUR 250 million; 0.0025%

Each additional share class starting with the second one: EUR 500.00 per annum

In addition, the Management Company, the Investment Advisors, the Depositary, the Domiciliary and Corporate Agent, the Administrative Agent and the Registrar and Transfer Agent are entitled to be reimbursed by the Fund for their reasonable out-of-pocket expenses and disbursements.

Their remuneration will be accrued in the accounts of the Fund on each Valuation Day.

6. Soft Dollar commissions

The Management Company or the Investment Manager(s) (if any) may use brokerage firms which, in addition to routine order execution, provide a range of other goods and services. To the extent permitted by the rules/regulations in the jurisdiction in which each is registered, the Management Company or the Investment Manager may accept goods or services (often referred to as “soft dollar commissions” or “soft commissions”) from these brokerage firms and where the Management Company or the Investment Manager is satisfied that the transactions generating the soft commissions are made in good faith, in strict compliance with applicable regulatory requirements, in direct relationship to the activities of the Management Company or the Investment Manager, in the aim of providing a better service to the Fund and in the best interest of the relevant Sub-Fund. The precise nature of such services will vary, but may include (i) research related to the economy, industries or a specific company, (ii) investment related hardware or software, (iii) electronic and other types of market quotation information systems, or (iv) financial or economic programs and seminars. Where the Management Company or the Investment Manager executes an order on behalf of a Fund through such a broker or other person, passes on that person’s charges to the Fund, and receives in return goods or services additional to that execution service, it will seek to ensure that such additional goods and services benefit the Fund or comprises the provision of research.

The Management Company or the Investment Manager shall not enter into unnecessary trades in order to qualify for such soft commissions or arrangements and shall not receive goods and services such as travel, accommodation and entertainment. In any case, such brokers will be legal entities. The Management Company or the Investment Manager will provide reports to the Fund with respect to soft commissions including the nature of the services it receives.

Any soft commissions received by the Management Company or the Investment Manager shall be commensurate with best market practice.

If soft commissions are received by the Board of Directors, they will be disclosed in the annual report of the Fund.

7. Investment Research

The Sub-Funds may be charged for investment research in order to contribute to better investment decisions.

IX. DEPOSITARY AND PAYING AGENT

Quintet Private Bank (Europe) S.A. has been appointed as depositary of the assets of the Fund.

Quintet Private Bank (Europe) S.A. is a credit institution which was incorporated on 23 May 1949 as a public limited liability company (société anonyme) under Luxembourg law, having its registered office at 43, Boulevard Royal, L-2449 Luxembourg and being registered with the RCS under number B 6395. On 31 December 2022, the capital and reserves of Quintet Private Bank (Europe) S.A. amounted to EUR 115.841.320.

Pursuant to a depositary agreement dated as of 8 July 2016 (the Depositary Agreement Quintet Private Bank (Europe) S.A. will carry out its functions and responsibilities in accordance with the provisions of the UCITS Directive and the Law of 2010.

The Depositary will further, in accordance with the UCITS Directive:

- a) ensure that the sale, issue, redemption, conversion and cancellation of shares of the Fund are carried out in accordance with the applicable Luxembourg law and the Articles;
- b) ensure that the value of the shares of the Fund is calculated in accordance with the applicable Luxembourg law and the Articles;
- c) carry out the instructions of the Management Company or the Fund, unless they conflict with the applicable Luxembourg law, or with the Articles;
- d) ensure that in transactions involving the assets of the Fund, any consideration is remitted to the Fund within the usual time limits;
- e) ensure that the income attributable to the Fund is applied in accordance with the and the Articles.

The Depositary shall ensure that the cash flows of the Fund are properly monitored, and, in particular, that all payments made by, or on behalf of, investors upon the subscription of shares of the Fund have been received, and that all cash of the Fund has been booked in cash accounts that are:

- a) opened in the name of the Fund or the Management Company on behalf of the Fund or of the Depositary acting on behalf of the Fund;
- b) opened at an entity referred to in points (a), (b) and (c) of Article 18(1) of Commission Directive 2006/73/EC ; and
- c) maintained in accordance with the principles set out in Article 16 of Directive 2006/73/EC.

The assets of the Fund shall be entrusted to the Depositary for safekeeping as follows:

- a) for financial instruments that may be held in custody, the Depositary shall:
 - (i) hold in custody all financial instruments that may be registered in a financial instruments account opened in the Depositary's books and all financial instruments that can be physically delivered to the Depositary;
 - (ii) ensure that all financial instruments that can be registered in a financial instruments account opened in the Depositary's books are registered in the Depositary's books within segregated accounts in accordance with the principles set out in Article 16 of Directive 2006/73/EC, opened in the name of the Fund, so that they can be clearly identified as belonging to the Fund in accordance with the applicable law at all times;
- b) for other assets, the Depositary shall:
 - (i) verify the ownership by the Fund of such assets by assessing whether the Fund holds the ownership based on information or documents provided by the Fund and, where available, on external evidence;
 - (ii) maintain a record of those assets for which it is satisfied that the Fund holds the ownership and keep that record up to date.

The assets held in custody by the Depositary may be reused only under certain circumstances, as provided for in the UCITS Directive.

In accordance with the provisions of the Depositary Agreement and the Law of 2010, the Depositary may, subject to certain conditions and in order to effectively conduct its duties, the Depositary may delegate to third parties certain functions referred to in the above paragraphs, provided that the

conditions set out in the UCITS Directive are fulfilled. When selecting and appointing a delegate, the Depositary shall exercise all due skill, care and diligence as required by the UCITS Directive and with the relevant CSSF regulations, to ensure that it entrusts the Fund's assets only to a delegate who may provide an adequate standard of protection.

The list of such delegates is available on <https://www.quintet.com/en-LU/Pages/Regulatory-affairs> and is made available to investors free of charge upon request.

Conflicts of interests:

In carrying out its duties and obligations as depositary of the Fund, the Depositary shall act honestly, fairly, professionally, independently and solely in the interest of the Fund and the investors of the Fund.

As a multi-service bank, the Depositary may provide the Fund, directly or indirectly, through parties related or unrelated to the Depositary, with a wide range of banking services in addition to the depositary services.

The provision of additional banking services and/or the links between the Depositary and key service providers to the Fund, may lead to potential conflicts of interests with the Depositary's duties and obligations to the Fund.

In order to identify different types of conflict of interest and the main sources of potential conflicts of interests, the Depositary shall take into account, at the very least, situations in which the Depositary, one of its employees or an individual associated with it is involved and any entity and employee over which it has direct or indirect control.

The Depositary is responsible for taking all reasonable steps to avoid those conflicts of interest, or if not possible, to mitigate them. Where, despite the aforementioned circumstances, a conflict of interest arises at the level of the Depositary, the Depositary will at all times have regard to its duties and obligations under the depositary agreement with the Fund and act accordingly. If, despite all measures taken, a conflict of interest that bears the risk to significantly and adversely affect the Fund or the investors of the Fund, may not be solved by the Depositary having regard to its duties and obligations under the Depositary Agreement, the Depositary will notify the conflicts of interests and/or its source to the Fund, which shall take appropriate action.

Furthermore the Depositary shall maintain and operate effective organizational and administrative arrangements with a view to take all reasonable steps designed to properly (i) avoid them prejudicing the interests of its clients, (ii) manage and resolve such conflicts according to the Fund decision and (iii) monitor them.

As the financial landscape and the organizational scheme of the Fund may evolve over time, the nature and scope of possible conflicts of interests as well as the circumstances under which conflicts of interests may arise at the level of the Depositary may also evolve.

In case the organizational scheme of the Fund or the scope of Depositary's services to the Fund is subject to a material change, such change will be submitted to the Depositary's internal acceptance committee for assessment and approval. The Depositary's internal acceptance committee will assess, among others, the impact of such change on the nature and scope of possible conflicts of

interests with the Depositary's duties and obligations to the Fund and assess appropriate mitigation actions.

Situations which could cause a conflict of interest have been identified as at the date of this Prospectus as follows (in case new conflicts of interests are identified, the list will be updated accordingly):

Conflicts of interests between the Depositary and the Sub-Custodian:

The selection and monitoring process of Sub-Custodians is handled in accordance with the 2010 Law and is functionally and hierarchically separated from possible other business relationships that exceed the sub-custody of the Fund's financial instruments and that might bias the performance of the Depositary's selection and monitoring process. The risk of occurrence and the impact of conflicts of interests is further mitigated by the fact that none of the Sub-Custodians used by the Depositary for the custody of the Fund's financial instruments is part of the Quintet Group.

The Depositary may act as depositary to other UCITS funds and may provide additional banking services beyond the depositary services and/or act as counterparty of the Fund for over-the-counter derivative transactions (maybe over services within Quintet).

The Depositary will do its utmost to perform its services with objectivity and to treat all its clients fairly, in accordance with its best execution policy.

The Depositary shall be liable to the Fund and its investors for the loss by the Depositary or a third party to whom the custody of financial instruments held in custody in accordance with the UCITS Directive. The depositary shall not be liable if it can prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

For other assets, the Depositary shall be liable only in case of negligence or intentional failure to properly fulfil its obligations.

The Depositary shall not be liable for the contents of this Prospectus and will not be liable for any insufficient, misleading or unfair information contained herein.

In consideration of its services and in accordance with usual practice in Luxembourg, the Depositary will be entitled to a fee calculated on the basis on the average net assets of the month of the Sub-Funds and payable monthly of maximum 0.065% p.a. of the net assets, with a monthly minimum of EUR 2.500 per Sub-Fund.

The rights and duties of the Depositary are governed by the Depositary Agreement entered into for an unlimited period of time from the date of its signature. The Fund and the Depositary may terminate the Depositary Agreement on ninety (90) calendar days' prior written notice; provided, inter alia, that a new depositary assumes the responsibilities and functions of the Depositary and that the prior approval of the home regulator of the Fund has been obtained, being understood that such appointment shall happen within two months. The Depositary shall, if terminated by the Fund, however continue thereafter for such period as may be necessary for the complete delivery or transfer of all assets held by it.

The rights and duties of Quintet Private Bank (Europe) S.A. as Paying Agent are governed by the Paying Agency Agreement entered into for an unlimited period of time from the date of its signature. As principal paying agent Quintet Private Bank (Europe) S.A. will be responsible for distributing income and dividends, if applicable, to the Shareholders.

X. DOMICILIARY AND CORPORATE AGENT, ADMINISTRATIVE AGENT, REGISTRAR AND TRANSFER AGENT

The Management Company acts as the domiciliary and corporate agent (the “Domiciliary and Corporate Agent”) for the Fund. In such capacity, it will be responsible for all corporate agency duties required by Luxembourg law, and in particular for providing and supervising the mailing of statements, reports, notices and other documents to the shareholders.

The Management Company has delegated, under its control and responsibility, its other central administration functions consisting of administrative and registrar and transfer agency functions.

UI efa S.A. has been appointed as administrative agent and registrar and transfer agent of the Fund (the “Administrative and Registrar and Transfer Agent”), in accordance with the Central Administrative, Registrar and Transfer Agency Agreement entered into between the Management Company and the Administrative and Registrar and Transfer Agent for an unlimited period of time effective as of 5 March 2020.

In such capacity, it will be responsible for all administrative duties required by Luxembourg law, and in particular the registrar function, the Net Asset Value calculation and accounting function, and the client communication function.

The registrar function encompasses all tasks necessary to the maintenance of the Fund register. The reception and execution of orders relating to shares subscriptions and redemptions, and the distribution of income (including the liquidation proceeds) and the safekeeping of the register of shareholders of the Fund are part of the registrar function.

The registrar function includes performance of registrations, alterations, or deletions necessary to ensure its regular update and maintenance.

The Net Asset Value calculation and accounting function is responsible for the correct and complete recording of transactions to adequately keep the Fund’s books and records in compliance with applicable legal, regulatory and contractual requirements as well as corresponding accounting principles. It is also responsible for the calculation and production of the Net Asset Value of the Fund in accordance with the applicable regulation in force.

The client communication function is comprised of the production and delivery of the confidential documents intended for investors.

XI. INVESTMENT MANAGER AND INVESTMENT ADVISOR

The Management Company is responsible for the management of the Sub-Funds. In order to carry out the investment policy of any Sub-Fund, the Management Company may, if and when it deems it opportune, appoint one or several investment managers for each Sub-Fund (individually the “Investment Manager” and collectively the “Investment Managers”) who may, subject to the prior approval of the Management Company, sub-delegate their powers, in which case the Prospectus shall be updated accordingly.

In addition, the Management Company and/or the Investment Manager(s) may be assisted by one or several investment advisors for each Sub-Fund (individually the “Investment Advisor” and collectively the “Investment Advisors”). An Investment Advisor may so be designated to provide investment advice on any particular category of assets of any Sub-Fund when it is considered that such an investment advisor has specific knowledge and skills in the contemplated assets. The

Management Company nor the Investment Manager as the case may be, will never be bound by the advice provided by the Investment Advisor as the case may be.

The appointment of an Investment Manager and/or of an Investment Advisor will be indicated in the specific information concerning the relevant Sub-Fund(s) contained in Part B of the Prospectus.

XII. DISTRIBUTORS

The Management Company, as global distributor for the Fund ("Global Distributor") may decide to appoint distributors/ financial intermediaries for the purpose of assisting it in the distribution of the Shares in the countries in which they are marketed.

Distribution agreements may be entered into by the Management Company and various distributors/ financial intermediaries provided that they are professionals in the financial sector and established in any of the member states of the European Union or of the European Economic Area.

The Distributor will carry out activities of marketing, placement and sale of Shares of the Fund. The Distributor will intervene in the relationship between the investors and the Fund in collecting subscription orders for Shares. The Distributor will be authorised to receive the subscription, redemption and conversion orders from the investors for the account of the Fund, and to offer Shares at a price based on the applicable Net Asset Value per Share increased, as the case may be, by a sales charge. The Distributor will transmit to the Registrar and Transfer Agent any application for subscription, redemption and conversion of Shares. The Distributor will also be entitled to receive and execute the payment of the issue, redemption and conversion orders of Shares.

The Financial intermediary will be recorded in the register of shareholders instead of the clients who have invested in the Fund. The terms and conditions of the Distribution agreement will stipulate, amongst other things, that a client who has invested in the Fund via a financial intermediary may, at any time, require that the Shares thus subscribed be transferred to his/her/its name, as a result of which the client will be registered under his/her/its own name in the register of shareholders with effect from the date on which the transfer instructions are received from the financial intermediary.

Investors may subscribe for Shares by applying directly to the Fund without having to subscribe through one of the distributors/financial intermediaries unless a financial intermediary's services are essential or mandatory under the applicable laws or regulations or for practical reasons.

The distributors/financial intermediaries so appointed will be mentioned in the annual and semi-annual reports of the Fund.

XIII. AUDITORS

Deloitte Audit S.à r.l. has been appointed as the Fund's Auditors and shall fulfil all duties prescribed by the Law of 2010.

XIV. TAXATION

The following summary is based on the law and practice currently in force and is subject to any future changes.

The information is not exhaustive and does not constitute legal or tax advice.

It is expected that shareholders in the Fund will be resident for tax purposes in many different countries. Consequently, no attempt is made in the Prospectus to summarize the taxation consequences for each investor of subscribing, converting, holding or redeeming or otherwise acquiring or disposing of Shares in the Fund. These consequences will vary in accordance with the law and practice currently in force in a shareholder's country of citizenship, residence, domicile or incorporation and with his/her/its personal circumstances.

Investors should inform themselves of, and when appropriate consult their professional advisors on, the possible tax consequences of subscribing for, buying, holding, converting, redeeming or otherwise disposing of Shares under the laws of their country of citizenship, residence, domicile or incorporation.

A. Taxation of the Fund

The Fund is not subject to in Luxembourg on its income, profits or gains. The Fund is, however, liable in Luxembourg to a tax (*taxe d'abonnement*) of 0.05% per annum of its Net Asset Value. This tax is reduced to 0.01% per annum of its Net Asset Value allocated to Classes intended for institutional investors. Such tax is payable quarterly on the basis of the value of the aggregate net assets of the Sub-Funds at the end of the relevant calendar quarter. However, the portion of assets which are invested in units of UCITS and UCIs shall be exempt from such tax as far as those UCITS and UCIs are already submitted to this tax in Luxembourg.

No stamp duty or other tax is payable in Luxembourg on the issue of Shares.

No Luxembourg tax is payable on the realised capital appreciation of the assets of the Fund.

Interest, dividend, capital gains and other income realised by the Fund on the sale of securities of non-Luxembourg issuers, may be subject to withholding and other taxes levied in the jurisdictions in which the income is sourced. It is impossible to predict the rate of foreign tax the Fund will pay since the amount of the assets to be invested in various countries and the ability of the Fund to reduce or recover such taxes is not known.

B. Taxation of the shareholders

Luxembourg resident individuals

Capital gains realised on the sale of the Shares by Luxembourg-resident Individual Investors who hold the Shares in their personal portfolios (and not as business assets) are generally not subject to Luxembourg income tax except if:

- (i) the Shares are sold within 6 months from their subscription or purchase; or
- (ii) if the Shares held in the private portfolio constitute a substantial shareholding. A shareholding is considered as substantial when the seller holds or has held, alone or with his/her spouse and underage children, either directly or indirectly at any time during the five

years preceding the date of the disposal , more than 10% of the share capital of the company.

Distributions received from the Fund will be subject to Luxembourg personal income tax. Luxembourg personal income tax is levied following a progressive income tax scale, and increased by the solidarity surcharge (*contribution au fonds pour l'emploi*).

Luxembourg resident corporate

Luxembourg-resident corporate Investors will be subject to corporate taxation at the rate of 23.87% as from fiscal year 2025 on capital gains realised upon disposal of Shares and on the distributions received from the Fund.

Luxembourg-resident corporate Investors who benefit from a special tax regime, such as, for example, (i) a UCI subject to the 2010 Law, (ii) specialised investment funds subject to the amended law of 13 February 2007 on specialised investment funds, or (iii) reserved alternative investment funds subject to the Law of 23 July 2016 on reserved alternative investment funds, or (iv) family wealth management companies subject to the amended law of 11 May 2007 related to family wealth management companies, are exempt from income tax in Luxembourg, but are instead subject to an annual subscription tax (*taxe d'abonnement*) and thus income derived from the Shares, as well as gains realised thereon, are not subject to Luxembourg income taxes.

The Shares shall be part of the taxable net wealth of the Luxembourg-resident corporate Investors except if the holder of the Shares is (i) a UCI subject to the 2010 Law, (ii) a vehicle governed by the amended law of 22 March 2004 on securitisation, (iii) an investment company governed by the amended law of 15 June 2004 on the investment company in risk capital, (iv) a specialised investment fund subject to the law of 13 February 2007 on specialised investment funds or (v) reserved alternative investment funds subject to the Law of 23 July 2016 on reserved alternative investment funds, or (vi) a family wealth management company subject to the amended law of 11 May 2007 related to family wealth management companies. The taxable net wealth is subject to tax on a yearly basis at the rate of 0.5%. A reduced tax rate of 0.05% is due for the portion of the net wealth exceeding EUR 500 million.

Non-Luxembourg residents

Non-resident individuals or collective entities who do not have a permanent establishment in Luxembourg to which the Shares are attributable, are not subject to Luxembourg taxation on capital gains realised upon disposal of the Shares nor on the distribution received from the Fund and the Shares will not be subject to net wealth tax.

Automatic Exchange of Information

The Organisation for Economic Co-operation and Development ("OECD") has developed a common reporting standard ("CRS") to achieve a comprehensive and multilateral automatic exchange of information (AEOI) on a global basis. On 9 December 2014, Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation (the "Euro-CRS Directive") was adopted in order to implement the CRS among the Member States. The Euro-CRS Directive was implemented into Luxembourg law by the Law of 18 December 2015 on the automatic exchange of financial account information in the field of taxation

("CRS Law"). The CRS Law requires Luxembourg financial institutions to identify financial assets holders and establish if they are fiscally resident in countries with which Luxembourg has a tax information sharing agreement.

Accordingly, the Fund may require its Investors to provide information in relation to the identity and fiscal residence of financial account holders (including certain entities and their controlling persons) in order to ascertain their CRS status. Responding to CRS-related questions is mandatory. The personal data obtained will be used for the purpose of the CRS Law or such other purposes indicated in the data protection section of the Prospectus in compliance with Luxembourg data protection law. Information regarding an Investor and his/her/its account will be reported to the Luxembourg tax authorities (*Administration des Contributions Directes*), which will thereafter automatically transfer this information to the competent foreign tax authorities on a yearly basis, if such an account is deemed a CRS reportable account under the CRS law.

Under the CRS Law, the first exchange of information will be applied by 30 September 2017 for information related to the calendar year 2016. Under the Euro-CRS Directive, the first AEOI must be applied by 30 September 2017 to the local tax authorities of the Member States for the data relating to the calendar year 2016.

In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("Multilateral Agreement") to automatically exchange information under the CRS. The Multilateral Agreement aims to implement the CRS among non-Member States; it requires agreements on a country-by-country basis.

The Fund reserves the right to refuse any application for Shares if the information provided or not provided does not satisfy the requirements under the CRS Law.

Investors should consult their professional advisors on the possible tax and other consequences with respect to the implementation of the CRS.

The Fund shall communicate any information to the Investor according to which (i) the Fund is responsible for the treatment of the personal data provided for in the FATCA Law; (ii) the personal data will *inter alia* be used for the purposes of the FATCA Law; (iii) the personal data may be communicated to the Luxembourg tax authorities (*Administration des Contributions Directes*); (iv) responding to FATCA-related questions is mandatory and accordingly the potential consequences in case of no response; and (v) the Investor has a right of access to and rectification of the data communicated to the Luxembourg tax authorities (*Administration des Contributions Directes*).

The Fund reserves the right to refuse any application for shares if the information provided by a potential investor does not satisfy the requirements under FATCA, the FATCA Law and the IGA.

XV. GENERAL INFORMATION

A. Corporate Information

The Fund was incorporated for an unlimited period of time in Luxembourg on 12 April 2012 and is governed by the Luxembourg law of 10 August 1915 on commercial companies, as amended, and by the Law of 2010.

The registered office of the Fund is established at 4, rue Jean Monnet, L-2180 Luxembourg.

The Fund is registered at the "*Registre de Commerce et des Sociétés*" with the District Court of Luxembourg under the number B 168353.

The Articles were published in the "*Mémorial C, Recueil des Sociétés et Associations*" (the "Mémorial") of 2 May 2012 renamed Recueil Electronique des Sociétés et Associations (the "RESA") and have been filed with the Chancery of the District Court of Luxembourg. Any interested person may inspect this document on the Chancery of the District Court of Luxembourg website at www.rcsl.lu.

The minimum capital of the Fund as provided by law, which must be achieved within 6 months from the date on which the Fund has been authorised as an undertaking for collective investment under Luxembourg law, is EUR 1,250,000.-. The capital of the Fund is represented by fully paid-up Shares of no par value. The initial capital of the Fund has been set at EUR 31,000.-.

The Fund is open-ended which means that it may, at any time on the request of the shareholders, redeem its Shares at prices based on the applicable Net Asset Value per Share.

In accordance with the Articles, the Board of Directors may issue Shares in each Sub-Fund. A separate portfolio of assets is maintained for each Sub-Fund and is invested in accordance with the investment objectives applicable to the relevant Sub-Fund. As a result, the Fund is an "umbrella fund" enabling investors to choose between one or more investment objectives by investing in one or more Sub-Funds.

The Board of Directors of the Fund may from time to time decide to create further Sub-Funds; in that event, the Prospectus will be updated and amended so as to include detailed information on the new Sub-Funds.

The share capital of the Fund will be equal, at any time, to the total value of the net assets of all the Sub-Funds.

B. Meetings of, and Reports to, shareholders

Notice of any general meeting of shareholders (including those considering amendments to the Articles or the dissolution and liquidation of the Fund) shall be mailed to each registered shareholder at least eight days prior to the meeting and shall be published to the extent required by Luxembourg law in the RESA and in any Luxembourg and other newspaper(s) that the Board of Directors may determine. Such notices will indicate the date and time of the meeting as well as the agenda, the quorum requirements and the conditions of admission.

If all the Shares are only issued in registered form, convening notices may be mailed by registered mail to each registered shareholder without any further publication.

The Fund publishes annually a detailed audited report on its activities and on the management of its assets; such report shall include, inter alia, the combined accounts relating to all the Sub-Funds, a detailed description of the assets of each Sub-Fund and a report from the Auditors.

The Fund shall further publish semi-annual unaudited reports, including, inter alia, a description of the investments underlying the portfolio of each Sub-Fund and the number of Shares issued and redeemed since the last publication.

The first report is an audited annual report dated 31 December 2012.

The aforementioned documents will be available within four months for the annual reports and two months for the semi-annual reports of the date thereof and copies may be obtained free of charge by any person at the registered office of the Fund.

The accounting year of the Fund commences on the first of January and terminates on the thirty first of December of the same year. The first accounting year has commenced on the date of incorporation of the Fund and ended on 31 December 2012.

The annual general meeting of shareholders takes place in Luxembourg City at a place specified in the notice of meeting on the third Wednesday in the month of April at 3.00 p.m. and was held for the first time in 2013. If such day is not a Business Day in Luxembourg, the annual general meeting shall be held on the next following Business Day in Luxembourg.

If permitted by and under the conditions set forth in Luxembourg laws and regulations, the annual general meeting of shareholders may be held at a date, time or place other than those set forth in the preceding paragraph, that date, time or place to be decided by the Board of Directors.

The shareholders of any Sub-Fund, Class or Category may hold, at any time, general meetings to decide on any matters which relate exclusively to such Sub-Fund, Class or Category.

The Fund's financial statements will be prepared and the Net Asset Value calculated in accordance with Luxembourg insert relevant accounting standards, LUXGAAP.

In accordance with the conditions laid down in the Luxembourg laws and regulations, the convening notice to any general meeting of shareholders of the Fund may provide that the quorum and the majority requirements applicable to the general meeting shall be determined according to the Shares issued and outstanding at a certain date and a certain time prior to the date set for the general meeting (the "Record Date"). The right of a shareholder to attend a meeting and to exercise the voting rights attaching to its Shares is determined in accordance with the Shares held by this shareholder at the Record Date.

The combined accounts of the Fund shall be maintained in EUR being the currency of the share capital. The financial statements relating to the various separate Sub-Funds shall also be expressed in the relevant Reference Currency for the Classes/Categories or Sub-Funds.

C. Dissolution and Liquidation of the Fund

1. Introduction

The Fund may be dissolved on a compulsory or voluntary basis.

The Fund shall, after the dissolution, be deemed to exist for the purpose of liquidation. In case of a voluntary liquidation, the Fund remains subject to the supervision of the CSSF.

After the close of liquidation, the sums and assets not claimed by a shareholder will be deposited in escrow at the *Caisse de Consignation* on behalf of the persons entitled thereto. Amounts not claimed from escrow within the statute of limitation period shall be liable to be forfeited in accordance with the provisions of Luxembourg law.

2. Voluntary liquidation

Should the Fund be voluntarily liquidated, its liquidation will be carried out in accordance with the provisions of the Law of 2010 and the Luxembourg law of 10 August 1915 on commercial companies, as amended. These laws specify the procedure to be followed and the steps to be taken.

The Fund may at any time be dissolved by a resolution of the general meeting of shareholders subject to the quorum and majority requirements applicable for amendments to the Articles.

Moreover, if the capital of the Fund falls below two-thirds of the minimum capital, i.e. currently EUR 1,250,000.-, the Board of Directors must submit the question of the dissolution of the Fund to the general meeting of shareholders for which no quorum will be required and which will decide by a simple majority of the votes of the Shares present or represented at the meeting. If the capital of the Fund falls below one-fourth of the required minimum, the Board of Directors must submit the question of the dissolution of the Fund to the general meeting of shareholders for which no quorum will be required; dissolution may be decided by the shareholders holding one-fourth of the votes of the Shares present or represented at the meeting. The meeting must be convened so that it is held within a period of forty days as from ascertainment that the net assets have fallen below two-thirds or one-fourth of the legal minimum, as the case may be.

Liquidation shall be carried out by one or several liquidators who may be physical persons or legal entities duly approved by the CSSF and appointed by the general meeting of shareholders which shall determine their powers and their compensation.

3. Compulsory liquidation

Should the Fund be compulsorily liquidated, its liquidation will be carried out exclusively in accordance with the provisions of the Law of 2010. This law specifies the procedure to be followed and the steps to be taken.

D. Liquidation, Merger and Split of Sub-Funds, Classes or Categories

1. Liquidation of Sub-Funds, Classes or Categories

The Board of Directors may decide to liquidate a Sub-Fund or a Class/Category by carrying out a compulsory redemption of all the Shares issued in such Sub-Fund or such Class/Category at the Net Asset Value per Share (taking into account actual realization prices of investments, realization expenses and the costs of liquidation) applicable on the Valuation Day at which such decision shall take effect if the net assets of the said Sub-Fund or the said Class/Category have decreased to, or have not reached, an amount under which the Sub-Fund can no longer be managed efficiently or if a change in the economic or political situation relating to the Sub-Fund or the Class/Category concerned has an influence on that Sub-Fund or that Class/Category, justifying such a liquidation or in order to proceed to an economic rationalization.

Such a liquidation decision shall be published and notified to the shareholders of the Sub-Fund or of the Class/Category before the effective date for the compulsory redemption. The notice shall indicate the reasons for, and the procedure of the liquidation. Owners of registered Shares shall be notified in writing and the Fund shall inform holders of bearer and dematerialised Shares by publication of a notice in one or more Luxembourg newspapers and in one or more national newspapers in the countries where the Shares are distributed, as determined by the Board of Directors. Unless the Board of Directors decides otherwise in the interest of shareholders or to ensure an equitable treatment between them, the shareholders of the Sub-Fund or of the Class/Category concerned may continue to request the redemption or conversion of their Shares, free of charge, before the liquidation coming into force on the basis of the applicable Net Asset Value per Share, taking into account an estimation of the liquidation costs.

The Fund shall reimburse each shareholder proportionally to the number of Shares held in the Sub-Fund or in the Class/Category.

Liquidation proceeds which may not be distributed to their beneficiaries upon the implementation of the liquidation will be deposited with the Depositary for a period of nine months as from the date of the decision on liquidation; after such period, the assets shall be deposited with the *Caisse de Consignation* on behalf of the persons entitled thereto.

2. Merger of Sub-Funds, Classes or Categories

Under the same circumstances as those described under Sub-Section 1. above, the Board of Directors may decide, in the interest of shareholders, to close a Sub-Fund or a Class/Category by merging it with another Sub-Fund or Class/Category of the Fund. This decision shall be published and notified in the same manner as described above. The notice shall besides indicate the information relating to the new Sub-Fund or the new Class/Category. The relevant notice shall be published and notified at least one month before the merger comes into force in order to enable the shareholders to request the redemption or conversion of their Shares, free of charge. At the end of that period, the remaining shareholders shall be bound by the decision.

Under the same circumstances as those described under Sub-Section 1. above, the Board of Directors may decide, in the interest of shareholders, to close a Sub-Fund or a Class/Category by merging it with another Luxembourg undertaking for collective investment organised under the provisions of Part I of the Law of 2010 or with a sub-fund or a class/category of such other Luxembourg undertaking for collective investment. Such decision shall be published and notified in the same manner as that described above. In addition, the notice shall contain information relating to that undertaking for collective investment. The relevant notice shall be published and notified at least one month before the merger comes into force in order to enable the shareholders to request the redemption or conversion of their Shares, free of charge. At the end of that period, the remaining shareholders shall be bound by the decision.

In the case of a merger with another Luxembourg undertaking for collective investment established in the form of a contractual type ("*Fonds Commun de Placement*") or with a foreign based undertaking for collective investment, the decision shall be binding only on those shareholders who have voted in favour of such merger; the other shareholders will be considered to have asked for the redemption of their Shares.

3. Split of Sub-Funds, Classes or Categories

Under the same circumstances as those described under Sub-Section 1. above, the Board of Directors may reorganise, in the interest of shareholders, a Sub-Fund or a Class/Category by splitting it into two or more new Sub-Funds or Classes/Categories. Such decision shall be published and notified in the same manner as that described under Sub-Section 2. above. In addition, the notice shall contain information relating to that split. The relevant notice shall be published and notified at least one month before the date on which the split becomes effective in order to enable shareholders to request the redemption or conversion of their Shares, free of charge. At the end of that period, the remaining shareholders shall be bound by the decision.

PART B - SPECIFIC INFORMATION

This specific Part B describes the particularities of the Sub-Funds of HALLEY SICAV. It is part of the Prospectus. Therefore, all information given herein should be considered in connection with the Prospectus and its Part A.

I. ALINEA GLOBAL

A. Investment Objective, Policy, Specific Risk factors and Risk Management of the Sub-Fund

Investment Objective

The Sub-Fund seeks to achieve medium to long-term capital appreciation, with added emphasis on the protection of capital during unfavourable market conditions, through a dynamic allocation between the eligible financial assets, the economic sectors and the geographical areas.

The Sub-Fund will be managed in order to keep a medium level of risk exposure to market fluctuations.

There is however no guarantee that this objective will be achieved.

Investment Policy

The Sub-Fund intends to achieve its objective mainly by the active management of a global portfolio of diversified eligible financial assets across a wide range of asset classes (more particularly equity and debt securities) in varying proportions over time.

No more than 60% of the net assets of the Sub-Fund will be invested in equities and equity-related securities. The remainder may be invested in debt securities and/or in money market instruments.

The Sub-Fund may when the portfolio manager considers it opportune, invest up to 10% of its net assets in units of other UCITS and/or other UCIs whose investment policy helps achieve the Sub-Fund's investment objective.

The Sub-Fund may invest up to 20% of its net assets in investment grade structured securities such as ABS, MBS or collateralized obligations with a pay-off linked to the relevant markets rather than actually investing in the markets. The term ABS covers, among other securities, all securities resulting from so-called "securitization" activities (cash or synthetic). Securitization is the mechanism whereby specific financial assets are converted into securities that can be traded on the financial markets. There are three main types of ABS related to securitization, corresponding to specific asset categories: Traditional ABS, MBS and Collateralized Debt Obligations. The Investment Manager will select ABS generating the most predictable and secure flows of cash. In addition, the term ABS also covers securities which are not resulting from securitization activities, such as securities which are

secured by assets, but whose cash flows do not necessarily derive from the cash flows of the underlying assets.

The Sub-Fund may use financial derivative instruments for hedging and/or investment purposes, such as but not limited to warrants, futures, options, swaps and forwards on currencies, interest rates and transferable securities. The Sub-Fund may reach a maximum of 100% derivatives exposure (netted).

The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

Investment Restrictions

The Sub-Fund is subject to the investment restrictions set out in Part A of the Prospectus under chapter I, sections B and C. In addition, the Sub-Fund may use techniques and instruments as set out under chapter I, section D in Part A of the Prospectus only to the extent provided for in the investment policy hereabove as the case may be.

The investment restrictions may not be complied with during a transitional period of 6 months from the date on which the Sub-Fund has been authorised, provided that the Sub-Fund will endeavour to ensure, at all times, an appropriate level of diversification of risk within the portfolio of the Sub-Fund.

Risk Management

The method retained by the Management Company for the determination of the global risk exposure of the Sub-Fund is the Commitment Approach.

Risk Profile

No guarantee can be given that the Sub-Fund's objective will be achieved and that investors will recover the amount of their initial investment.

Past performance is not an indicator for future results or performance.

Specific Risk Considerations

In addition to general risk factors listed in Part A of the Prospectus under chapter I, paragraph "General risks" of Section B) 4 "Risk Factors", the risks listed below are the main specific risks of the Sub-Fund. Investors should be aware that other risks may also be relevant to this Sub-Fund from time to time. Please refer to the Section B) 4 "Risk Factors" for a full description of these risks:

- Risks related to Investments in Financial Derivative Instruments;
- Risks Related to Investments in Equities (including ordinary and preference shares);
- Risks Related to Investments in Fixed-Interest Securities (including convertible debt securities);

- Risks related to Investments in Options;
- Risks Related to Investments in Fixed-Interest Securities Without Regular Interest Payments and Risks Related to Investments in Zero Bonds;
- Risks Related to Investments in Equity Related Securities;
- Risks Related to Investments in Bonds;
- Risks Related to Investments in ABS, MBS or collateralized obligations.
- Risks related to Depository Receipts;
- Credit and Counterparty Risks;
- Liquidity Risk;
- Sector and/or Geographical Concentration Risks;
- Risks related to Investments in Participation Notes;
- Risks related to Currency Exposure and Passive Currency Hedging;
- Risk related to Investments in Emerging and Less Developed Markets;
- Political and Economic Risk Factors of Emerging Markets;
- Settlement and Custodial Risk; Risks related to Exchange Rate Hedging Transactions; and
- Risks related to Investments in Convertible Securities.

SFDR

The Management Company decides not to currently consider the adverse effects of investment decisions on sustainability factors for this Sub-Fund as defined in Article 7 (2) of the SFDR Regulation.

As per the current investment strategy and the composition of the portfolio, the Management Company assesses that such impact deems not to be relevant.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Profile of targeted investors

The Sub-Fund targets informed investors who are advised to invest only part of their assets therein.

The Sub-Fund is intended for retail and institutional investors.

B. Generalities of the Sub-Fund

Shares

i. Classes of Shares

The Sub-Fund actually offers five Classes of Shares which may differ by the minimum initial investment amount and the level of the Management Company Fees:

- Class A: shares denominated in EUR and intended for retail investors
- Class A2: shares denominated in EUR and intended for retail investors
- Class B: shares denominated in EUR and intended for retail investors
- Class I: shares denominated in EUR and intended for institutional investors

ii. Distribution Policy

No dividend is expected to be paid to the shareholders.

iii. Form of Shares

Shares will be issued in a dematerialised form or a registered form.

iv. ISIN Codes

	Classes of Shares	ISIN Codes
ALINEA GLOBAL	Class A	LU0908524779
	Class A2	LU2926252862
	Class B	LU0908524852
	Class I	LU0908524936

Subsequent Subscriptions

The Subscription Price corresponds to the Net Asset Value per Share on the relevant Valuation Day, which may be increased by a sales charge of a maximum of 3% of the Net Asset Value and which shall be retained by the sales agents.

In order to be dealt with on the basis of the Net Asset Value per Share established on a Valuation Day, duly completed and signed subscription forms must be received by the Registrar and Transfer Agent in Luxembourg no later than 3.00 p.m., Luxembourg time, on the Business Day preceding such Valuation Day and must be accepted. Subscription forms received after this time and date will take effect on the next following Valuation Day.

Payment shall be received no later than 2 Business Days following the applicable Valuation Day for the account of the Fund referencing the Sub-Fund.

The corresponding Shares will be issued as of the applicable Valuation Day.

Minimum initial investment amount

The minimum investment for Class A is set at EUR 300,000.-.

The minimum investment for Class A2 is set at EUR 1,000,000.-.

Redemptions

The Redemption Price corresponds to the Net Asset Value per Share on the relevant Valuation Day.

In order to be dealt with on the basis of the Net Asset Value per Share established on a Valuation Day, written redemption requests must be received by the Registrar and Transfer Agent in

Luxembourg no later than 3.00 p.m., Luxembourg time, on the Business Day preceding such Valuation Day. Redemption requests received after this time and date will take effect on the next following Valuation Day.

The Redemption Price shall be paid no later than 2 Business Days following the applicable Valuation Day.

Redemption fee: None

Conversions

The Shares of a Class of the Sub-Fund may be converted into Shares of the same Class of another Sub-Fund of the Fund according to the procedure described in Part A of the Prospectus.

The conversion list will be closed under the same terms and conditions as applicable to redemptions in the Sub-Fund.

Reference Currency

The Sub-Fund is denominated in EUR.

The Net Asset Value of the Class A, Class A2, Class B, and the Class I is expressed in EUR.

Frequency of the Net Asset Value per Share (NAV) calculation and Valuation Day

For each Business Day ("Valuation Day"), there is a corresponding Net Asset Value per Share which is dated that Valuation Day and calculated and published on the following Business Day(s) after that Valuation Day.

Publication of the NAV

The Net Asset Value and the issue and redemption prices of the Shares will be available at the registered office of the Fund.

Listing on the Luxembourg Stock Exchange

The Shares of the Sub-Fund are not actually admitted to official listing on the Luxembourg Stock Exchange.

Taxation

The Sub-Fund is liable to a tax of 0.05% per annum of its Net Asset Value (*taxe d'abonnement*), such tax being payable quarterly on the basis of the value of the aggregate net assets of the Sub-Fund at the end of the relevant calendar quarter. However, this tax is reduced to 0.01% per annum for the net assets attributable to Class I intended for institutional investors. The portion of assets which are invested in units of UCITS and UCIs shall be exempt from such tax as far as those UCITS and UCIs are already submitted to this tax in Luxembourg.

C. Investment Advisor

The Management Company has appointed ALTERAREA EAF S.L. whose registered office is at Calle Urzaiz 5, CP 36201, Vigo, Pontevedra, Spain, as investment advisor for the sub-fund (the "Investment advisor").

ALTERAREA EAF S.L will keep the investments of the Sub-Fund under constant review and address recommendations to the Management Company in connection with the investment and reinvestment of the Sub-Fund's portfolio

Pursuant to Investment Advisor Agreement, the Sub-Fund will pay an investment advisory fee (the "Investment Advisory Fee") to the Investment Advisor in remuneration for its services. Such Investment Advisory Fee is equal to 0.10% per annum of the average net assets of the Sub-Fund.

D. Management Company Fees, and Distribution Fees

Pursuant to the Collective Portfolio Management Agreement, the Sub-Fund will pay a management company fee (the "Management Company Fee") to the Management Company in remuneration for its services. Such Management Company Fee is equal to 0.27% per annum of the average net assets of the Sub-Fund.

Such fees are accrued on each Valuation Day and payable monthly in arrears.

The Sub-Fund will pay a Distribution Fee to the Management Company acting as Global Distributor for the following Share Classes:

- 1.10% per annum of the average net assets of the Sub-Fund allocated to Class A
- 0.80% per annum of the average net assets of the Sub-Fund allocated to Class A2
-
- 1.20% per annum of the average net assets of the Sub-Fund allocated to Class B
- 0.80% per annum of the average net assets of the Sub-Fund allocated to Class I

II. INTERNATIONAL DIVERSIFIED PORTFOLIO

A. Investment Objective, Policy, Specific Risk factors and Risk Management of the Sub-Fund

Investment Objective

The investment objective of the Sub-Fund is to seek to achieve long term capital appreciation through a flexible and active management of the portfolio.

Investment Policy

The Sub-Fund aims at capital appreciation over the long-term by investing mainly in a selected portfolio of international assets, such as but not limited to equity and fixed income instruments of all types and money market instruments.

The Sub-Fund will invest primarily in equities and Equity-Linked Securities (including but not limited to Ordinary or Preference Shares, ETPs, ADRs, GDRs, closed-ended real estate investment trusts (REITs), and equity-related derivatives). Moreover, the proportion in equity and Equity-Linked Instruments could be substantially decreased, but will not fall below 10% of its assets. Depending on the market conditions, the Investment Manager will adapt the Sub-Fund's equity exposure in order to align the momentum and future market expectations with the best interest of the shareholders.

The remaining part will be invested in fixed income-related instruments (including but not limited to fixed or floating-rate, zero-coupon, convertible securities, preferred bonds, capital notes) and money market instruments issued by corporate and sovereign issuers.

The Sub-Fund will not invest in bonds which are rated below speculative grade (CCC) by one or more of the main rating agencies (Moody's, Standard & Poors & Fitch), or in its absence, by a professional recognized rating agency registered and/or regulated by the European Securities and Markets Authority (ESMA).

The Sub-Fund may purchase unrated securities (securities which are not rated by a rating agency) up to 10% of its net assets if the Investment Manager determines that the security is of comparable quality to a rated security that the Sub-Fund may purchase or the issuer of the security is rated. The Sub-Fund will not invest in distressed securities.

Additionally, the Sub-Fund may also invest up to 10% in aggregate of its net assets in CoCos, preferred bonds and capital notes.

The Sub-Fund will invest primarily in the OECD countries.

The Sub-Fund may also invest up to 10% in ADRs/GDRs of companies which are domiciled in, or with main activities, within the Peoples Republic of China or in the Chinese bond market by holding securities issued by government or companies domiciled in, or with main activities, within the Peoples Republic of China.

Investing in China is a fairly new trading program; the relevant regulations are untested and can be subject to change. For more information refer to the section County Risk - China in the Special Risk Considerations chapter of this document.

Investments can be done directly or indirectly, through financial derivative instruments or other UCITS/UCIs (including ETFs).

The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes. The Investment Manager will use listed derivatives to cover the risk related to investments in Equity and Fixed Income. The purpose is to be able to promptly modify the exposure to markets through financial instruments derivatives, instead of changing a big portion of the portfolio. The financial instruments derivatives will also be used for investment purposes to benefit from quick changes in market trends.

The types of derivatives may include, but are not limited to, single stock and equity index futures comprised by a basket of securities listed within a specific stock market such as but not limited to Standard & Poor's 500 Index, Dow Jones Industrial Average Index or the DAX Stock Index (including its respective E-Mini's), options, currency futures and forwards.

The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

The Sub-Fund is actively managed and does not track an Index.

Definitions

ADR/ GDR

ADRs (American Depositary Receipts) are a form of equity securities that were created specifically to offer investors access to individual non-US Companies. An ADR is issued by an American bank or broker. It represents one or more shares of foreign-company stock held by that bank in the home stock market of the foreign company.

GDR's (Global Depositary Receipt) are similar to ADR's, the only difference is that ADR's are only issued by U.S banks or brokers and traded on a U.S Stock exchange, while GDR's are issued in a number of countries and offered to investors in 2 or more markets.

Equity-Linked Security

The term equity-linked security refers to a debt instrument with variable payments linked to an equity market benchmark. These securities are an alternative type of fixed-income investment—structured products most often created as bonds.

ETP

Exchange traded products (ETPs) are types of securities that track underlying securities, an index, or other financial instruments. ETPs trade on exchanges similar to stocks meaning their prices can fluctuate from day-to-day and intraday. However, the prices of ETPs are derived from the underlying investments that they track.

Ordinary or preference Shares

An ordinary share is a form of corporate equity ownership, a preference share is a component of share capital which may have any combination of features not possessed by common stock including properties of both an equity and a debt instrument, and is generally considered a hybrid instrument and may have priority over ordinary shares in the payment of dividends and upon liquidation.

REIT

A real estate investment trust (REIT) is a company that owns, operates, or finances income-generating real estate. Modeled after mutual funds, REITs pool the capital of numerous investors. This makes it possible for individual investors to earn dividends from real estate investments—without having to buy, manage, or finance any properties themselves.

Investment Restrictions

The Sub-Fund is subject to the investment restrictions set out in Part A of the Prospectus under chapter I, sections B and C. In addition, the Sub-Fund may use techniques and instruments as set out under chapter I, section D in Part A of the Prospectus only to the extent provided for in the investment policy here-above as the case may be.

Risk Management

The method retained by the Management Company for the determination of the global risk exposure of the Sub-Fund is the Commitment Approach.

Risk Profile

No guarantee can be given that the Sub-Fund's objective will be achieved and that investors will recover the amount of their initial investment.

Past performance is not an indicator for future results or performance.

Specific Risk Considerations

In addition to general risk factors listed in Part A of the Prospectus under chapter I, paragraph "General risks" of Section B) 4 "Risk Factors", the risks listed below are the main specific risks of the Sub-Fund. Investors should be aware that other risks may also be relevant to this Sub-Fund from time to time. Please refer to the Section B) 4 "Risk Factors" for a full description of these risks:

- Risks related to Investments in Real Estate;
- Risks related to Investments in REITs are set out in the paragraphs titled "Risks related to Investments in Real Estate"
- Risks related to Investments in Depositary Receipts
- Risks related to Investments in CoCos;
- Risks related to Investments in China;
- The risks associated with Investments in ETP are set out in the paragraphs titled "Risks Related to Investments in Equity Related Securities",
- Risks related to Investment in distressed and defaulted securities

SFDR

The Management Company decides not to currently consider the adverse effects of investment decisions on sustainability factors for this Sub-Fund as defined in Article 7 (2) of the SFDR Regulation.

As per the current investment strategy and the composition of the portfolio, the Management Company assesses that such impact deems not to be relevant.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Profile of targeted investors

The Sub-Fund targets informed investors who are advised to invest only part of their assets therein.

The Sub-Fund is intended for retail investors.

B. Generalities of the Sub-Fund

Shares

i. Classes of Shares

The Sub-Fund actually offers one Class of Shares:

- Class R: Shares denominated in EUR and intended for retail investors

ii. Distribution Policy

No dividend is expected to be paid to the shareholders.

Redemption fee: None

Conversions

The Shares of a Class of the Sub-Fund may be converted into Shares of the same Class of another Sub-Fund of the Fund according to the procedure described in Part A of the Prospectus.

The conversion list will be closed under the same terms and conditions as applicable to redemptions in the Sub-Fund.

Reference Currency

The Sub-Fund is denominated in EUR.

The Net Asset Value of the Class R is expressed in EUR.

Frequency of the Net Asset Value per Share (NAV) calculation and Valuation Day

For each Business Day ("Valuation Day"), there is a corresponding Net Asset Value per Share which is dated that Valuation Day and calculated and published on the following Business Day after that Valuation Day.

Publication of the NAV

The Net Asset Value and the issue and redemption prices of the Shares will be available at the registered office of the Fund.

Listing on the Luxembourg Stock Exchange

The Shares of the Sub-Fund are not actually admitted to official listing on the Luxembourg Stock Exchange.

Taxation

The Sub-Fund is liable to a tax of 0.05% per annum of its Net Asset Value (*taxe d'abonnement*), such tax being payable quarterly on the basis of the value of the aggregate net assets of the Sub-Fund at the end of the relevant calendar quarter. The portion of assets which are invested in units of UCITS and UCIs shall be exempt from such tax as far as those UCITS and UCIs are already submitted to this tax in Luxembourg.

C. Management Company Fees and Investment Management Fees

Management Company Fees

Pursuant to the Collective Portfolio Management Agreement, the Sub-Fund will pay a management company fee (the “Management Company Fee”) to the Management Company in remuneration for its services. Such Management Company Fee is equal to 0.20% per annum of the average net assets of the Sub-Fund, with a minimum of EUR 19,000.

Investment Management Fees

The Management Company has appointed Andorra Gestió Agricol Reig SAU, SGOIC, domiciled at C/. Manuel Cerqueda i Escaler 3-5, AD700 Escaldes-Engordany, Principality of Andorra, as investment manager for the Sub-Fund (the “Investment Manager”).

Pursuant to the Investment Management Agreement, the Investment Manager will receive at the expense of the Sub-Fund an investment management fee (the “Investment Management Fee”) in remuneration for its services.

Such Investment Management Fee is equal to 0.40% for Class R per annum of the average net assets of the relevant Class of Shares during the relevant month. Such fee is accrued on each Valuation Day and payable monthly in arrears.

III. LA PLETA

A. Investment Objective, Policy, Specific Risk factors and Risk Management of the Sub-Fund

Investment Objective

The investment objective of the Sub-Fund is to seek to generate the highest possible return to the investors through an active management of the portfolio.

The Investment Manager will apply a bottom-up approach based on companies' fundamental analysis from a global stock universe. It will look for understandable business models to find companies with a sustainable growth over time, limited debt, ability to generate consistent cash flow and geographical diversification of earnings along with a reliable corporate management.

Investment Policy

The Sub-Fund intends to achieve its investment objective by investing at least 75% of its assets in equity and Equity-Linked Securities (including but not limited to Ordinary or Preferred Shares, UCITS and UCIs including ETFs, ADRs, GDRs and closed-ended real estate investment trusts (REITs)), with no predetermination as to the selection of equity securities by market capitalization neither geographic location restrictions of the companies in which the Sub-Fund invests.

The Sub-Fund may invest up to 10% of the assets in ADRs/GDRs from companies domiciled in or with main activities within the People's Republic of China, Hong Kong and Brazil and up to 10% of the assets in REITs.

The Sub-Fund may also invest up to 10% of its assets in units of UCITS and UCIs, including ETFs and including also those managed or distributed by companies in the Andbank Group and other Sub-Funds of the Fund.

The Base Currency of the Sub-Fund is the Euro but assets may be denominated in other currencies. However some part of the assets of the Sub-Fund will be denominated in or hedged into Euro.

For hedging and efficient portfolio management purposes, the Sub-Fund may use all types of financial derivative instruments traded on a Regulated Market and/or OTC, provided they are contracted with first class financial institutions specialized in this type of transactions. In this context, the Sub-Fund may principally use listed futures on equity indices such as but not limited to the Standard & Poor's 500 Index and/or the EURO STOXX 50 Index Futures.

The Sub-Fund may reach a maximum of 100% derivatives exposure (netted). The Sub-Fund's global exposure shall consequently not exceed 200% of its total net assets (Gross).

The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

The Shares of a Class of the Sub-Fund may be converted into Shares of the same Class of another Sub-Fund of the Fund according to the procedure described in Part A of the Prospectus.

The conversion list will be closed under the same terms and conditions as applicable to redemptions in the Sub-Fund.

Reference Currency

The Sub-Fund is denominated in EUR.

The Net Asset Value of the Class A is expressed in EUR.

Frequency of the Net Asset Value per Share (NAV) calculation and Valuation Day

For each Business Day ("Valuation Day"), there is a corresponding Net Asset Value per Share which is dated that Valuation Day and calculated and published on the following Business Day after that Valuation Day.

Publication of the NAV

The Net Asset Value and the issue and redemption prices of the Shares will be available at the registered office of the Fund.

Listing on the Luxembourg Stock Exchange

The Shares of the Sub-Fund are not actually admitted to official listing on the Luxembourg Stock Exchange.

Taxation

The Sub-Fund is liable to a tax of 0.05% per annum of its Net Asset Value (*taxe d'abonnement*), such tax being payable quarterly on the basis of the value of the aggregate net assets of the Sub-Fund at the end of the relevant calendar quarter. The portion of assets which are invested in units of UCITS and UCIs shall be exempt from such tax as far as those UCITS and UCIs are already submitted to this tax in Luxembourg.

C. Management Company Fees and Investment Management Fees

Management Company Fees

Pursuant to the Collective Portfolio Management Agreement, the Sub-Fund will pay a management company fee (the "Management Company Fee") to the Management Company in remuneration for its services. Such Management Company Fee is equal to 0.15% per annum of the average net assets of the Sub-Fund, with a minimum of EUR 15,000.

Investment Management Fees

The Management Company has appointed Andorra Gestió Agricol Reig, SAU, SGOIC, domiciled at C/. Manuel Cerqueda i Escaler 3-5, AD700 Escaldes-Engordany, Principality of Andorra, as investment manager for the Sub-Fund (the "Investment Manager").

Pursuant to the Investment Management Agreement, the Investment Manager will receive at the expense of the Sub-Fund an investment management fee (the "Investment Management Fee") in remuneration for its services.

Such Investment Management Fee is equal to 0.20% for Class A per annum of the average net assets of the relevant Class of Shares during the relevant month. Such fee is accrued on each Valuation Day and payable monthly in arrears.

IV. MIXED ALLOCATION

A. Investment Objective, Policy, Specific Risk factors and Risk Management of the Sub-Fund

Investment Objective

The Sub-Fund aims at capital appreciation over the long-term by investing mainly in a selected portfolio of mixed international assets, such as but not limited to equity and fixed income instruments, UCITS and other UCIs and money market instruments.

The investment manager will allocate the assets of the sub-fund based on a top-down approach, analyzing on a first instance the global macroeconomic environment such as the different countries GDP, trade balances, currency fluctuations, inflation, interest rates and social developments in order to identify and select the most outperforming sectors, industries or investable regions with focus (but not limited to) the OECD countries. According to the analysis performed, the investment manager will have flexibility to adapt its strategy to the selection made on different type of assets, sectors, industries or investable regions.

Investment Policy

The Sub-Fund intends to achieve its investment objective by investing up to 80% of its assets in equity and Equity-Linked Securities (including but not limited to Ordinary or Preferred Shares and indirectly through UCITS and UCIs (including ETFs), ADRs, GDRs and closed-ended real estate investment trusts (REITs)), with no predetermination as to the selection of equity securities by market capitalization neither geographic location restrictions of the companies in which the Sub-Fund invests. The portfolio manager may tactically increase or reduce exposure according to the market conditions; with an increased equity exposure when confidence in market conditions is high, supported by strong macroeconomic outlooks or favorable valuations, and conversely, it may overweight the fixed income exposure to mitigate risks and volatility during periods of uncertainty or expensive valuations.

Investments in REITs will not exceed 10%. REITs will be selected according to the expertise of the management, the diversification of the underlying investments, the type of property, the geographical allocation and the financials and Funds From Operations.

The Sub-Fund will invest the remaining part of its assets in fixed income-related instruments (including but not limited to fixed or floating-rate, zero-coupon and convertible securities) and money market instruments issued by corporate and sovereign issuers, with no predetermination as to the selection of securities in terms of duration, market capitalization or geographical allocation.

The Sub-Fund will not invest more than 20% of its assets in money market instruments.

The Sub-Fund will not invest more than 20% of its assets in debt securities rated as high yield by one or more of the main rating agencies (Moody's, Standard & Poors & Fitch), or in its absence, by a professional recognized rating agency registered and/or regulated by the ESMA. In case of a bond

hold by the Sub-Fund experiences a downgrade, it will be sold as soon as possible, in the best interests of shareholders.

Additionally, the Sub-Fund may invest, in aggregate, in convertible bonds and in contingent convertibles bonds (CoCo's) up to 10% of its assets.

The Sub-Fund may indirectly invest up to 30% of its assets through ADRs/GDRs, including companies domiciled in, or with main activities within the Peoples Republic of China, Hong Kong and Macao.

The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes. The types of derivatives may include, but are not limited to, bond, single stock and equity index futures and options, currency futures and forwards.

The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of Article 41(2) of the Law of 17 December 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

Definitions

ADR/ GDR

ADRs (American Depositary Receipts) are a form of equity securities that were created specifically to offer investors access to individual non-US Companies. An ADR is issued by an American bank or broker. It represents one or more shares of foreign-company stock held by that bank in the home stock market of the foreign company.

GDR's (Global Depositary Receipt) are similar to ADR's, the only difference is that ADR's are only issued by U.S banks or brokers and traded on a U.S Stock exchange, while GDR's are issued in a number of countries and offered to investors in 2 or more markets.

Equity-Linked Security

The term equity-linked security refers to a debt instrument with variable payments linked to an equity market benchmark. These securities are an alternative type of fixed-income investment—structured products most often created as bonds.

Ordinary or Preferred Shares

An ordinary share is a form of corporate equity ownership, a preference share is a component of share capital which may have any combination of features not possessed by common stock including properties of both an equity and a debt instrument, and is generally considered a hybrid instrument and may have priority over ordinary shares in the payment of dividends and upon liquidation.

REIT

A real estate investment trust (REIT) is a company that owns, operates, or finances income-generating real estate. Modeled after mutual funds, REITs pool the capital of numerous investors. This makes it possible for individual investors to earn dividends from real estate investments—without having to buy, manage, or finance any properties themselves.

Investment Restrictions

The Sub-Fund is subject to the investment restrictions set out in Part A of the Prospectus under chapter I, sections B and C. In addition, the Sub-Fund may use techniques and instruments as set out under chapter I, section D in Part A of the Prospectus only to the extent provided for in the investment policy here-above as the case may be.

Risk Management

The method retained by the Management Company for the determination of the global risk exposure of the Sub-Fund is the Commitment Approach.

Risk Profile

No guarantee can be given that the Sub-Fund's objective will be achieved and that investors will recover the amount of their initial investment.

Past performance is not an indicator for future results or performance.

Specific Risk Considerations

In addition to general risk factors listed in Part A of the Prospectus under chapter I, paragraph "General risks" of Section B) 4 "Risk Factors", the risks listed below are the main specific risks of the Sub-Fund. Investors should be aware that other risks may also be relevant to this Sub-Fund from time to time. Please refer to the Section B) 4 "Risk Factors" for a full description of these risks:

- Risks related to Investments in REITs
- Risks related to Investments in Depositary Receipts
- Risks related to Investments in Chinese Securities

SFDR

The Management Company decides not to currently consider the adverse effects of investment decisions on sustainability factors for this Sub-Fund as defined in Article 7 (2) of the SFDR Regulation.

As per the current investment strategy and the composition of the portfolio, the Management Company assesses that such impact deems not to be relevant.

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Profile of targeted investors

The Sub-Fund targets informed investors who are advised to invest only part of their assets therein.

The Sub-Fund is intended for retail and institutional investors.
