The Commission de Surveillance du Secteur Financier ("CSSF") in Luxembourg is responsible for supervising Andbank Asset Management Luxembourg in relation to this Key Information Document.

Investec Multi Asset Balanced is authorised in Luxembourg and regulated by the CSSF.

This product is managed by Andbank Asset Management Luxembourg, which is authorised in Luxembourg and supervised by the CSSF.

Accurate as of: 20 December 2024

What is this product?

Type

- This product is a class of shares of the Sub-Fund and denominated in USD. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The investment objective of the Sub-Fund is to maximize total return (the combination of income and growth of capital) through investments in a diversified range of asset types.

Investment policy:

- The investment objective is achieved through a diversified portfolio that invests, primarily via open ended investment companies, exchange traded funds and other collective investment schemes, across a wide range of asset classes in varying proportions over time. The portfolio may also invest directly in transferable securities and/or unit trusts.
- Typically, the Sub-Fund will have 60% exposure to equities. According to market circumstances, the investment manager will have the flexibility to reduce the equity exposure to a minimum of 25% of the portfolio or to increase it to a maximum of 85% of the portfolio.
- The remainder shall be invested or exposed in bonds, notes and similar fixed or variable debt, money market instruments, cash, cash equivalents and other assets which comply with the provisions set forth in section 10 "Investment Restrictions and Financial Techniques and Instruments" of the prospectus.
- The Sub-Fund may use financial derivative instruments for hedging and/or investment purposes. Any resulting leverage will be within the limits specified by the regulations. The Sub-Fund is expected to have a maximum of 20% derivatives exposure (netted).
- The types of derivatives may include, but are not limited to, single stock and equity index futures and options, currency futures and forwards, OTC derivatives, single stock swaps, basket swaps, single stock CFDs, basket CFDs and index CFDs.
- The Sub-Fund may also invest in debt securities (such as money market instruments), treasury bills, bank deposits and any other eligible assets listed under article 41(1) of the law of 2010 for treasury purposes and in case of unfavourable market conditions.
- The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of article 41(2) of the Law of 2010. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of

exceptionally unfavorable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors, for instance in highly serious circumstances such as the September 11 attacks or the bankruptcy of Lehman Brothers in 2008.

- The Sub-Fund is actively managed without reference to a benchmark.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Shareholders may redeem their shares in the Sub-Fund on each business day in Luxembourg.

Distribution policy: Non-distributing shares: any income generated by the Sub-Fund is reinvested.

Intended Institutional Investor

Designed for investors seeking a balance between security for their capital and growth potential for their investment.

This share class is not intended to be placed with the public and may only be acquired by qualified institutional investors.

The minimum investment is USD 100,000.

Term

This product was incorporated for an undefined period. The manufacturer may not terminate it unilaterally. The board of directors or an extraordinary general meeting of shareholders may terminate this product under the conditions set forth in the prospectus.

Practical information

Depository: The Bank of New York Mellon SA/NV, Luxembourg branch, 2-4, Rue Eugène Ruppert, L-2453 Luxembourg, Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Shareholders are entitled to convert their shares in shares of another sub-fund/shares of the Fund, as described under "Conversion of Shares" section of the prospectus. Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, at the registered office of the Fund: 4, rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and on the following website: www.andbank.com/luxembourg/.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Not all risks affecting the Sub-Fund are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, these includes: credit risk, liquidity risk, counterparty risk, operational risk, use of derivatives, currency risk, duplication of certain fees and expenses, market risk and sustainability risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the Fund performance. Please refer the "Risk Factors" section of the prospectus of the Fund.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 August 2021 and 29 November 2024.

Moderate: this type of scenario occurred for an investment between 31 May 2019 and 31 May 2024.

Favourable: this type of scenario occurred for an investment between 30 June 2016 and 30 June 2021.

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) \$ 10,000 is invested.

Example Investment \$ 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	\$ 177	\$ 1,568
Annual cost impact*	1.8%	2.6%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 6.5% before costs and 4.0% after costs.

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

This Fund is designed for medium term investments; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty incurred for disinvestment prior to the end of the recommended holding period, or hold the investment longer. Any shareholder may apply for redemption of its shares in part or in whole on any valuation day. For redemptions from any Sub-Fund, valid written redemption applications should be received in good order by the registrar and transfer agent no later than 12.00 CET on the relevant valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.
