This product is managed by Andbank Asset Management Luxembourg, which is authorised in Luxembourg and supervised by the CSSF.

Accurate as of: 20 December 2024

What is this product?

Type

- This product is a class of units of the Sub-Fund and denominated in EUR. The Fund is an open-ended common fund with variable capital (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The Sub-Fund seeks to achieve capital growth over the long term investing in a diversified global portfolio.

Investment policy:

- The Sub-Fund will invest in different eligible types of asset classes, such as, but not limited to, equities, bonds, UCITS or UCIs and money market instruments. The allocation of the portfolio may vary according to the portfolio manager's expectations.
- The Sub-Fund will invest especially in the OECD countries; anyway the Sub-Fund could take exposure to the emerging markets funds for a residual portion of its assets.
- The Sub-Fund will invest at least a minimum portion of its assets in equities of large and medium companies. The investments can be done directly or indirectly, through financial derivative instruments or other UCITS/UCIs.
- The Sub-Fund will invest in fixed income instruments (issued by corporates or governments) without rating restrictions. The average duration will be dynamically managed by the portfolio manager and may vary depending on market conditions, even if the strategy will be focused in short term bonds. The investments can be done directly or indirectly, through financial derivative instruments or other UCITS/UCIs.
- The Sub-Fund is actively managed without reference to a benchmark.
- The Sub-Fund may invest up to 20% of its net assets in structured securities such as asset backed securities ("ABS"), mortgage backed securities or collateralized obligations with a pay-off linked to the relevant markets rather than actually investing in the markets.
- The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes.
- The Sub-Fund may hold on an ancillary basis up to 20% of its assets in bank deposits at sight, such as cash held in current accounts with bank accessible at any time, in accordance with the provisions of article 41(2) of the Law of 17 December 2010.
- Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavorable market conditions, circumstances so require and where such breach is

justified having regard to the interests of the investors, for instance in highly serious circumstances such as the September 11 attacks or the bankruptcy of Lehman Brothers in 2008.

- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Investors may request redemptions of units on the 15th day and the last day of each month which is a bank business day in Luxembourg. If that day is not a bank business day in Luxembourg, the valuation day will be the previous day which is a bank business day in Luxembourg.

Distribution policy: Income generated by the Sub-Fund is reinvested and included in the value of units.

Intended Retail/Institutional Investor

This unit class is available for retail and institutional investors. This Sub-Fund will suit investors who see investment funds as the best way of gaining exposure to capital market movements. It may also appeal to those aiming to balance income from bond and money markets, with some exposure to the capital appreciation generally offered by equities. Investors must have experience with volatile products and how they are affected by the performance of financial markets. They must also be able to bear significant short-term losses and, hence, be willing to maintain their investment for at least five years.

There is no minimum investment.

Term

The Sub-Fund and class of units were incorporated for an undefined period. The manufacturer and the depositary may terminate this product unilaterally under specific circumstances as describe in the prospectus. Unitholders may not request dissolution or liquidation of the Fund.

Practical information

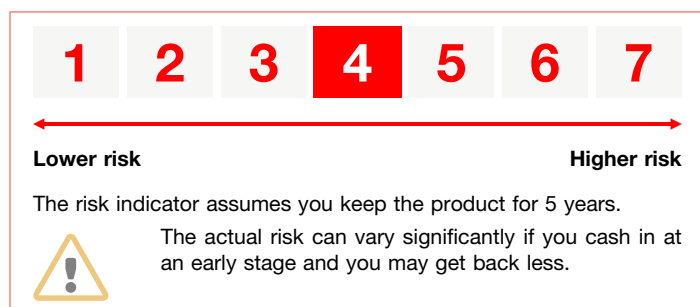

Depositary: Quintet Private Bank (Europe) S.A., 43 Boulevard Royal, L-2449 Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Unitholders are entitled to convert their units in units of another sub-fund/units of the Fund, as described under "Conversion of Units" section of the prospectus. Copies of the prospectus and of the last annual and semi-annual reports as well as other practical information such as the latest price

for the units may be obtained free of charge, in English, at the registered office of the Fund: 4, rue Jean Monnet L-2180 Luxembourg, Grand Duchy of Luxembourg and on the following website: www.andbank.com/luxembourg/.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 27 March 2015 and 27 March 2020.

Moderate: this type of scenario occurred for an investment between 22 April 2017 and 22 April 2022.

Favourable: this type of scenario occurred for an investment between 19 November 2016 and 19 November 2021.

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 188	€ 1,237
Annual cost impact*	1.9%	2.0%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 6.6% before costs and 4.6% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year

Transaction costs	0.51% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 51
Incidental costs taken under specific conditions		
Performance fees	0.00% . There is no performance fee for this product.	€ 0

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty incurred for disinvestment prior to the end of the recommended holding period, or hold the investment longer. Unitholders may redeem their units on any valuation day provided that the request for redemption is received in Luxembourg prior to 2 p.m., Luxembourg time, on the day immediately preceding the applicable valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.
