Accurate as of: 20 December 2024

What is this product?

Type

■ This product is a class of units of the Sub-Fund and denominated in USD. The Fund is an open-ended common fund with variable capital (*Fonds Commun de Placement* or "FCP") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.

■ As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

■ The objective of the Sub-Fund is to seek long-term capital appreciation in EUR by an active management, which may include some investments that could involve a high risk of return.

Investment policy:

■ The Sub-Fund may invest its assets in equities and Equity-Linked Instruments (including but not limited to ADRs, and GDRs) with no limits on any market all over the world and more particularly in OECD countries; therefore, it may invest in different currencies.

■ The Sub-Fund may also invest its assets in fixed income securities with no limits on any market all over the world and more particularly in OECD countries; therefore it may invest in different currencies.

■ The Sub-Fund may also invest up to 10% of its assets in securities or securities related instruments issued by the government or companies domiciled in or with their main business activities in: China, Hong-Kong and Taiwan, including B shares and China A-Shares which may include but not limited to those China A Shares traded via Stock Connect, and financial derivative instruments on this type of securities.

■ The Sub-Fund shall not invest more than 10% of its assets in units of UCITS or other UCIs.

■ The Sub-Fund will not borrow money to increase its exposure to the markets.

■ The Sub-Fund is actively managed without reference to a benchmark.

■ The Sub-Fund may hold, up to 20% of its net assets, in ancillary liquid assets which consist of bank deposits at sight in accordance with the provisions of article 41(2) of the investment fund law. Notwithstanding the above provision, the above mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

■ The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes. The types of derivatives may include, but are not limited to, single stock and equity index futures and options, currency futures and forwards, OTC derivatives, single stock CFDs, basket CFDs and index CFDs.

■ Investors must accept and assume the risk that entails the Sub-Fund's investment policy as established from time to time by the management company.

■ This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.

■ The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

■ Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

Redemption and dealing: Unitholders may redeem units on demand, on a daily basis.

Distribution policy: Income generated by the Sub-Fund is reinvested and included in the value of units.

Intended Retail/Institutional Investor

Investors should have a long-term approach to the investment in this Sub-Fund and the board of directors advises them not to try timing their investments in the Sub-Fund because this may even worsen the situation of their portfolio in bad times. Investors should be aware that this Sub-Fund will take a rather risky position in the market, and they may be exposed to variations of the net asset value per Unit due to market fluctuations; therefore, investors should be ready to stand through adverse situations.

This unit class is available for retail and institutional investors.

There is no minimum investment.

Term

The Sub-Fund and class of units were incorporated for an undefined period. The manufacturer and the depositary may terminate this product unilaterally under specific circumstances as describe in the prospectus. Unitholders may not request dissolution or liquidation of the Fund.

Practical information

Depositary: Citibank Europe plc, Luxembourg Branch, 31 zone d'activités Bourmicht, L-8070 Bertrange, Grand Duchy of Luxembourg.

Further information: The prospectus of the Fund and periodic reports are prepared for the entire Fund. Assets and liabilities of each sub-fund are segregated by law, meaning that the liabilities allocated to one sub-fund may not impact the other sub-fund. Unitholders are entitled to convert their units in units of another sub-fund/units of the Fund, as described under "Conversion" section of the prospectus. Copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information such as the latest price for the units may be obtained free of charge, in English, at the registered office of the management company: 4, rue Jean Monnet L-2180

Luxembourg, Grand Duchy of Luxembourg and on the following website:

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 August 2021 and 29 November 2024.

Moderate: this type of scenario occurred for an investment between 31 January 2018 and 31 January 2023.

Favourable: this type of scenario occurred for an investment between 26 February 2016 and 26 February 2021.

What happens if Andbank Asset Management Luxembourg is unable to pay out?

You are exposed to the risk Andbank Asset Management Luxembourg, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) \$ 10,000 is invested.

Example Investment \$ 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	\$ 701	\$ 1,651
Annual cost impact*	7.0%	3.1%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 3.3% before costs and 0.2% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	5.00% maximum of the amount you pay in when entering this investment. In case of conversion into another class or another sub-fund, no conversion fee is charged but you may be requested to bear the difference in subscription if higher.	up to \$ 500
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	up to \$ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.98% per year, based on the value of your investment. This is an estimate based on actual costs over the last year.	\$ 198
Transaction costs	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$ 3
Incidental costs taken under specific conditions		
Performance fees	0.00% . This is an estimate, calculated on an annualised basis, based on the average over the previous 5 years. We charge 10% of the positive performance over the high water mark. The actual amount will vary depending on how well your investment performs.	\$ 0

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Investors may request redemption of shares prior to 4.00 p.m. at the latest on the last business day before the relevant valuation day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.

In order to prevent dilution effect, the Management Company has the power to charge a "dilution levy" on the subscription, redemption and/or conversion of units. If charged, the dilution levy will be paid into the Sub-Fund and will not exceed 2% of the relevant net asset value per unit.

How can I complain?
