What is this product?

Type

- This product is a class of shares of the Sub-Fund and denominated in EUR. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investments in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 related to undertakings for collective investments ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Investment objective:

- The Sub-Fund aims at capital appreciation over the long-term by investing mainly in a selected portfolio of international assets, such as but not limited to equity and fixed income instruments, UCITS and other UCIs and money market instruments.

Investment policy:

- The Sub-Fund intends to achieve its investment objective by investing up to 80% of its assets in equity and equity-linked securities (including but not limited to ordinary or preferred shares and indirectly through UCITS and UCIs (including ETFs), ADRs, GDRs and closed-ended real estate investment trusts (REITs)), with no predetermination as to the selection of equity securities by market capitalization neither geographic location restrictions of the companies in which the Sub-Fund invests. The portfolio manager may tactically increase or reduce exposure according to the market conditions; with an increased equity exposure when confidence in market conditions is high, supported by strong macroeconomic outlooks or favorable valuations, and conversely, it may overweight the fixed income exposure to mitigate risks and volatility during periods of uncertainty or expensive valuations.
- Investments in REITs will not exceed 10%.
- The Sub-Fund will invest the remaining part of its assets in fixed income-related instruments (including but not limited to fixed or floating-rate, zero-coupon and convertible securities) and money market instruments issued by corporate and sovereign issuers, with no predetermination as to the selection of securities in terms of duration, market capitalization or geographical allocation.
- The Sub-Fund will not invest more than 20% of its assets in money market instruments.
- The Sub-Fund will not invest more than 20% of its assets in debt securities rated as high yield by one or more of the main rating agencies (Moody's, Standard & Poors & Fitch), or in its absence, by a professional recognized rating agency registered and/or regulated by the ESMA.
- Additionally, the Sub-Fund may invest, in aggregate, in convertible bonds and in contingent convertibles bonds (CoCo's) up to 10% of its assets.

- The Sub-Fund may indirectly invest up to 30% of its assets through ADRs/GDRs, including companies domiciled in, or with main activities within the People's Republic of China, Hong Kong and Macao.
- The Sub-Fund may use financial derivative instruments for both hedging and/or investment purposes. The types of derivatives may include, but are not limited to, bond, single stock and equity index futures and options, currency futures and forwards.
- In case of a bond held by the Sub-Fund experiences a downgrade, it will be sold as soon as possible, in the best interests of shareholders.
- The Sub-Fund will not invest more than 20% of its net assets in ancillary liquid assets, being cash and bank deposits at sight (such as cash held in current accounts), in normal market conditions. Under exceptionally unfavourable market conditions and on a temporary basis, this limit may be breached, if justified in the interest of the investors.
- This financial product does not promote environmental or social characteristics and does not have as its objective a sustainable objective.
- The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 5 years.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in the Key Information Document's EU regulation, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than one year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 March 2015 and 31 March 2020.

Moderate: this type of scenario occurred for an investment between 30 November 2018 and 30 November 2023.

Favourable: this type of scenario occurred for an investment between 29 October 2016 and 29 October 2021.

A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 107	€ 714
Annual cost impact*	1.1%	1.1%

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 6.6% before costs and 5.5% after costs.

How long should I hold it and can I take money out early?

Recommended Holding Period ("RHP"): 5 years

The RHP has been defined by taking into account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty prior to the end of the RHP, or hold the investment longer. Investors may request redemption of shares no later than 3.00 p.m., Luxembourg time, on the business day preceding the applicable Valuation Day. Redemption requests received after this time and date will take effect on the next following Valuation Day. The redemption price shall be paid no later than 2 business days following the applicable Valuation Day. Any cashing-in before the end of the RHP may have a negative consequence on your investment.
